

# Earn a Masters Degree, **FREE.**

**YOU ARE:** a talented, driven professional with aspirations in Environmental Engineering. You have a bachelors degree with excellent or above average academic performance. And, you are a Singaporean citizen, permanent resident or are interested in becoming a Singapore permanent resident within two years of course completion.

**WE ARE:** Black & Veatch, a leading global engineering, consulting and construction company including a growing Global Design Centre headquartered in Singapore.

Through the Joint National Research Foundation (Environment and Water Technologies) Black & Veatch is pleased to fund **scholarships for the pursuit of Masters Degrees in Environmental Engineering** at Nanyang Technological University. The comprehensive Scholarship covers full-time course fees, a monthly stipend and paid employment with Black & Veatch during term breaks. On successful completion of the Masters Degree Programme candidates will be bonded to Black & Veatch for 2 years.

To get an application for the January 2008 intake visit:
