ALL POSSIBLE PATHS: RICHARD FEYNMAN’S CURIOUS LIFE

To mark the centenary of Nobel laureate Richard Feynman, one of the 20th century’s most influential physicists, the ArtScience Museum is presenting an exhibition on his life and works.

Besides his scientific achievements, Feynman was also involved in art, having discovered a passion for painting, thanks to his artist friend Jirayr Zorthian, who gave him art lessons in return for physics lessons.

Feynman was also fascinated by safe-cracking, bongo drums and the small Russian republic of Tuva.

The exhibition, a collaboration with Nanyang Technological University and the Nobel Museum in Sweden, features a section of artworks based on scientific concepts central to Feynman’s research.

WHERE: ArtScience Museum, Marina Bay Sands, 6 Bayfront Avenue
MRT: Bayfront
WHEN: Till March 3 next year, 10am to 7pm daily, last admission at 6pm
ADMISSION: $12 for Singapore residents, $15 for foreigners. Concessions for seniors and children and family packages available
