

2008 BIRC Workshop on Advances in Bioinformatics

16 February 2008

**Research Techno Plaza
Nanyang Technological University, Singapore**

2008 BIRC Workshop on Advances in Bioinformatics will highlight recent advances in the field of computational biology and bioinformatics. The workshop will feature presentations of ongoing research activities by faculty members, researchers, and graduate students at the Bioinformatics Research Center (BIRC), Nanyang Technological University, Singapore.

The workshop will include presentations of research in the areas of comparative genomics, computational genomics, proteomics, functional genomics, systems biology, cheminformatics, immunoinformatics, neuroinformatics, pharmacogenomics, medical informatics, and bioimaging.

The workshop comprises of three sessions of oral presentations and an open house highlighting poster presentations and demos. Research presented in oral and poster presentations will be published in the Workshop Proceedings.

To view the program, please visit <http://www.ntu.edu.sg/birc/workshopFeb08/program>

The oral presentations will be held in the Video Conference Room (RTP/XF 02-05) and the open house will be held in BIRC (RTP-3rd Floor).

There is no registration fee for the conference, but prior registration is required.

For registration, please visit: <http://www.ntu.edu.sg/birc/workshopFeb08/registration>.
