WSQ PE GRADUATE DIPLOMA IN DESIGN AND PROCESSES

The Precision Engineering Workforce Skills Qualifications (PE WSQ) Graduate Diploma in Design and Processes is a joint programme by Nanyang Technological University, Centre for Continuing Education (NTU CCE) and the Singapore Workforce Development Agency (WDA). The objective of this programme is to inculcate the core competencies including fundamental knowledge and skills in precision engineering design and processes necessary for managers and engineers in precision engineering related manufacturing industries. Participants will have to complete 2 core modules and any 3 electives modules to qualify for the WSQ PE Graduate Diploma Qualification.

CAT B Grant Fee Subsidy (SG/SPR) and up to

• **90%** fee subsidy under Enhanced Training Support for SME (ETSS)

• **90%** fee subsidy under SkillsFuture Mid-Career Enhanced Subsidy (MCES)

• **95%** fee subsidy under Workfare Training Support (WTS)

CORE MODULES	ELECTIVES
<ul style="list-style-type: none"> • WSQ Geometric Dimensioning & Tolerancing • WSQ Implement Optical Metrology 	<ul style="list-style-type: none"> • WSQ Manage High Vacuum Technology • WSQ Design for Assembly in Manufacturing • WSQ Tolerance Stackup and Analysis in Mechanical Design • WSQ Lean Six Sigma Methodology • WSQ Apply Statistics for Lean Six Sigma

Criteria for WSQ Funding

To be eligible for course fee funding, participants;

- must be a Singaporean or Permanent Residents of Singapore
- must achieve at least 75% attendance and pass all required assessments
- eligibility acceptance subject to WDA's final approval before course commencement

Participants who do not fulfil the above criteria are not eligible for WSQ funding and certification, and are required to pay the course fee in full.

Certification and Accreditation

Participant will be awarded a Statement of Attainment (SOA) for successfully completing each module. A WSQ PE Design and Processes Graduate Diploma upon completion of 2 core modules and any 3 electives.

EMPLOYMENT AND EMPLOYABILITY INSTITUTE (e2i) SUPPORTED COURSES

The e2i funding aims to support Engineers and Professionals, Managers and Executives (PMEs) in upgrading their horizontal and vertical skills and increase their current competency level in their relevant industries.

Criteria for e2i Funding

To be eligible for course fee funding, participants;

- must be a Singaporean or Permanent Residents of Singapore
- must achieve at least 75% attendance

Participants who do not fulfil the above criteria are not eligible for e2i funding and are required to pay the course fee in full. Funding placement is on a first-come-first-served basis.

A Certificate of Completion will be awarded at the end of the course.

PROFESSIONAL DEVELOPMENT UNITS (PDUs)

In this fast changing and dynamic environment, there is a need for professional engineers (PEs) to maintain and update their professional competency on a continuing basis. In order to achieve this, a PE must acquire a minimum of 40 (PDUs) over a renewal-qualifying period, of which a minimum of 15 PDUs must be from structured activities. NTU CCE's engineering related courses are accredited with PDUs under structured activities. For more information, visit the Professional Engineers Board of Singapore's (PEB) website at www.peb.gov.sg.

GENERAL INFORMATION

- All listed course fees are inclusive of prevailing GST.
- All courses include complimentary lunch and tea breaks.
- Complimentary parking at NTU@one-north is available for all course participants. Conditions apply.
- The closing date for registration is 2 weeks before start date, unless otherwise stated.
- Course commencement is subject to meeting the minimum number of registered participants.
- Funding placement is subject to a first-come-first-served basis in light of overwhelming responses.
- All details are correct at time of printing.
- NTU CCE reserves the right to replace or cancel any course or change the trainer, in light of unforeseen circumstances.

POLICIES

Cancellation & Refund Policy:

CANCELLATION	REFUND
A written notification to cce@ntu.edu.sg or fax to 6774 2911 before course closing date.	Full Refund of course fee.
A written notification on or after course closing date.	No Refund of course fee. SkillsFuture Credit (if applicable): <ul style="list-style-type: none">• Participant to cancel their claim with WDA.• NTU-CCE reserves the rights to collect the full fee amount from the participant.

Replacement Policy:

- Company may replace their participants who have signed up for the course by giving a 3 days notice before course commencement.
- Replacement must match the enrollment criteria of the course.
- SkillsFuture Credit cannot be utilised for a replacement participant. Participant has to cancel their SkillsFuture credit claim with WDA.

IN-HOUSE TRAINING ARRANGEMENT

OUR PROFESSIONAL DEVELOPMENT COURSES CAN BE TAILORED TO MEET YOUR ORGANISATION AND SPECIFIC TRAINING NEEDS

COST EFFECTIVE

Organising an in-house programme just for your staff allows our trainer to focus on your training objectives and expected learning outcome. This translates to a more cost effective proposition for your organisation.

CUSTOMISABLE

Customising and contextualising of existing course contents to enhance learning of key competency elements and ease of adaptation.

CONFIDENTIAL

Our customised programme allows for open discussions by your staff relating to specific issues/projects specific to your company.

COHESIVE

Discussions among your staff during the programme will facilitate team-building and project planning as they begin to see and understand each other's perspectives. The value of cohesive team-building is realised when real-life business problems are solved.

CONVENIENT

For your convenience, all logistics and course administrations are handled by our team of experienced personnel; freeing you to work on other matters.

Feel free to contact us for further discussion. For more information, call 6790 4212, or email your requirements to cce@ntu.edu.sg

ACCELERATED LEAN SIX SIGMA GREEN BELT

INTRODUCTION

NTU Centre for Continuing Education (NTU-CCE), in collaboration with Singapore Workforce Development Agency (WDA) will be offering two WSQ Lean Six Sigma courses. Course participants who have completed both WSQ Establish Lean Six Sigma Methodology and WSQ Applying Statistics for Lean Six Sigma courses are able to pursue the Lean Six Sigma Green Belt Certification awarded by Pivotal Resources Asia Pte Ltd.

COURSE DETAILS

WSQ ESTABLISH LEAN SIX SIGMA METHODOLOGY

Lean Six Sigma methodology is used in many industries because of the drive to enhance innovation and productivity. This programme gives participants a comprehensive understanding of how Lean Six Sigma works to generate the benefits it offers. Participants will receive an overview of the key principles, strategies and tools used in Lean Six Sigma initiative and how this methodology can get and keep your organisation on the road to success.

This course will also feature a process simulation activity – Dot simulation that will give participants a first-hand look at how DMAIC tools are applied.

The Lean Six Sigma course focuses on process improvement through waste elimination and variation reduction. It is applied on processes that are inefficient and ineffective. The application of tools are not restricted to manufacturing or engineering processes, it could also be applied to transactional process in Human Resources, Finance or Customer Services.

This course will enable participants to improve process efficiency and effectiveness for productivity and innovation gain.

COURSE DATES:

- 4 to 8 April 2016 (Registration closing date: 21 March 2016)

WSQ APPLY STATISTICS FOR LEAN SIX SIGMA

WSQ Apply Statistics for Lean Six Sigma builds measurement and analytical skills that enable more refined and sophisticated use of data. These newly acquired skills and techniques then become the “power tools” which all Lean Six Sigma Practitioners apply when charts, graphs and “descriptive” data methods fall short.

Besides learning to apply these analytical methods, this course will place emphasis on when and why statistical tools should be applied in order to add value to the organisation.

COURSE DATES:

- 24 to 27 May 2016 (Registration closing date: 10 May 2016)
