NTU offers students comprehensive range of career services

CareerHub was initiated by Nanyang Technological University’s (NTU) Office of Professional Attachments. It serves as a career centre that provides students and graduates with an optimal environment for career development and planning. CareerHub’s comprehensive range of career services fall into three categories.

Career Management Services

Career coaching and advising
NTU students can uncover their career interest and plot their career goals and directions by speaking with CareerHub’s team of qualified career coaches over personalized sessions.

Mentor-Link
Mentor-Link connects NTU students with alumni in industry. These alumni provide students with insider perspectives and advice on career options.

Career resources
CareerHub has a wide collection of career resources to help students in their career planning and management. Other than housing the latest books and videos on career management, the centre also has a collection of company profiles for students’ reference.
Workshops and talks
CareerHub organizes regular workshops and talks for students. Topics such as resume-writing, interview skills, networking and career management are often very well-received by students.

Complete resume kit
CareerHub provides students with a suite of resume services, from advising students on resume-writing to sending them to prospective employers.

Industry talks
Careerhub also organizes industry talks by industry experts or organization representatives to provide NTU students with information on specific industry trends and its career prospects.

Recruitment events

Networking Nights
The Networking Nights series is an annual event for employers targeting to recruit the cream of the crop at NTU.

Career Fair
The annual NTU Career Fair caters mainly to graduating students and is a good opportunity for students to speak face-to-face with prospective employers to learn more about job opportunities and requirements.

Recruitment talks
Recruitment talks are typically held from January to March, and in October. Students may learn about career opportunities and job requirements of specific employers at these talks.

Career efair@NTU
Career efair@NTU is the first such efair for a tertiary institution in Singapore. It is conducted annually from June to July and features employers with ready job openings.

Big Four Joint Recruitment
The Big Four Joint Recruitment is an excellent opportunity for graduating accountancy students to apply for jobs with Singapore’s Big Four accounting firms.

Campus interviews
After the final examinations, employers are invited to take up tutorial rooms in NTU to conduct walk-in interviews on campus to recruit graduating students.
Online services

CareerMall@NTU
A state-of-the-art career portal, CareerMall@NTU allows NTU students to view and apply for jobs online from across industries. Not just for graduating students, temporary or part-time jobs for current students can also be found here.

Online career advising
This is a channel for students to have their career questions answered by a career coach via emails. Replies are posted online for the benefit of other students who may have the same question in mind.

Online career resources
CareerHub stores a collection of career-related articles online for convenient browsing.
