Singapore, 15 March 2006

NTU holds largest ever Career Fair

Nanyang Technological University’s (NTU) Career Fair 2006 is its largest ever.

Sixty five employers will take up more than 100 booths at this year’s fair, which will be held from 15 to 16 March 2006 at NTU. Last year, about 60 employers set up 85 booths.

More than 1,000 jobs will be on offer at the fair, which targets mainly graduating students but is also open to current students. Some 7,000 students are expected to attend.

Of the participating employers, about 85% are from the private sector. About 20 employers will be participating for the first time. All come from the private sector and include Kellogg Brown and Root Asia-Pacific, and Tata Consultancy Services Asia Pacific.

On-the-spot activities at the fair include:

- Job interviews
- Career coaching
- Career talks

Says Mr Ng Boon Hwang, Director, Office of Professional Attachments (OPA), NTU: “NTU graduates perform well on the employment scene. They attract excellent salaries and multiple job offers from major employers. We are pleased that these employers continue to be eager in seeking out NTU graduates, and
believe that their confidence in NTU graduates stems from their knowledge of NTU’s innovative and rigorous curriculum, holistic education and established practice of nurturing leaders for the real world.”

NTU Career Fair is just one of a wide range of career-related activities organised by OPA each year.

*** END ***

**About Nanyang Technological University**

Nanyang Technological University (NTU) is a research-intensive university with globally acknowledged strengths in science and engineering. The university has a beautiful garden campus and a distinguished lineage with roots that go back to 1955.

NTU's 12 schools span diverse disciplines – from engineering and the sciences to art, design and media. The university has a strong engineering college focused on innovation, a business school with one of the top 100 MBA programmes in the world, an internationally-acclaimed National Institute of Education, one of the best communication and information schools in Asia, and a biological sciences school at the forefront of Singapore's life sciences initiative. The Institute of Defence and Strategic Studies is a world authority on terrorism issues.

Ranked among the top 50 universities in the world, NTU has in place multi-country programmes and initiatives, many established through its strategic alliances with 300 institutions in more than 45 countries, including Massachusetts Institute of Technology, Stanford University, California Institute of Technology, Cornell University, Cambridge University, and Beijing University.
