About the NOL – Captain MJ Sayeed Scholarship

The NOL – Captain M J Sayeed Scholarship is set up in memory of Captain Muhammad Jalaluddin Sayeed, the founding Managing Director of NOL, who had made pioneering contribution to Singapore’s maritime industry in the 1960s.

The endowed scholarship will go towards benefiting students who demonstrate leadership potential and possess a passion for a career in the maritime industry. The scholarship will cover full tuition fees for NTU post-graduate students.

Applicants will be considered based on their academic performance and working experience in the maritime industry. Applicants who demonstrate leadership potential and passion towards a life-long career in the maritime industry will be strongly favoured.

Short-listed candidates will be interviewed and selected by the NTU Scholarship Selection Committee with an NOL representative.

About the Master of Science (Maritime Studies)

NTU’s Master of Science (Maritime Studies) programme produces high calibre and talented graduates to play leading roles in fulfilling Singapore’s vision to be an internationally renowned maritime hub.

This programme provides an avenue for higher training for young graduates and middle-management executives working in shipping-related areas. The MSc programme enables participants to gain a deeper understanding of key topics related to the maritime business such as shipping management, shipping economics and shipping and transport logistics.
The MSc (Maritime Studies) programme will be conducted jointly by NTU and the Norwegian School of Management (BI). BI is the first Norwegian educational and research institution to achieve international accreditation and is recognized as one of Europe’s leading business schools. Visiting professors as well as experts and specialists in shipping areas will be invited to conduct special classes for the programme.

The minimum duration to complete the MSc programme is 2 semesters (1 year) for full-time students, and 4 semesters (2 years) for part-time students.

Candidates who complete all the requirements will be awarded the degree of Master of Science (Maritime Studies) by NTU. Some of the course credits will be recognized by BI towards the fulfillment of the MBA degree in BI.

<thead>
<tr>
<th>Name</th>
<th>Mr Muhammad Azfar Khan</th>
</tr>
</thead>
<tbody>
<tr>
<td>Country of origin</td>
<td>Pakistan</td>
</tr>
<tr>
<td>About the candidate</td>
<td>Management trainee at APL-NOL since September 2004, Azfar currently works as a project analyst in the company’s Regional Administration Centre in Kuala Lumpur, Malaysia, where he manages projects pertaining to systems improvement and increased efficiency. Supervisory roles include managing a team overseeing the operations in India, Saudi Arabia and the United Arab Emirates. A graduate from Lahore University of Management Sciences, he majored in Computer Science with a minor in Economics. Azfar also worked with the WWF for the conservation and protection of the environment, and received a Presidential Award for conservation merit. In addition, his team’s project on the SensUS Security Health Monitoring System, which acts as a disaster prevention and evacuation system for buildings and their structure maintenance earned them a top ten placing in the Computer Science International Design Competition 2004, organised by IEEE and Microsoft. Azfar’s other interests include cricket, rock-climbing and playing the piano.</td>
