Talk on Entrepreneurship
Organized by NTU EEE Alumni Association

The NTU School of EEE Alumni Association organised its first in a series of talks on Entrepreneurship at the Centre for Innovation and Entrepreneurship (CIE) on the evening of 28 March. The event opened with a networking dinner where the participants exchanged business cards and discussed business opportunities. More than 80 people signed up to listen to Mr. Inderjit Singh, Technopreneur and Member of Parliament, talk about Entrepreneurship in Singapore. The participants included graduates from the School of EEE and the Nanyang Business School, some graduates from the Mechanical and Civil Schools as well as some undergraduates. After the dinner Inderjit talked about his experience, his ‘life journey’ as an entrepreneur, how he had overcome many challenges, and five important lessons for entrepreneurs that he had learned. The enthusiasm among the participants was evident from the number of questions asked during the Q&A session and many even stayed back after the session to engage him in more intensive discussions. Everything finally ended about 10 pm, with many looking forward to the next talk in the series.

Bowling Rendezvous 2003

The Bowling Rendezvous 2003 was held on the 8th of March at the Cathay Bowl bowling centre in the east. This annual event is jointly organized by the EEE Club and the EEE Alumni Association to enable students and staff to interact with members of the EEE Alumni Association.

Guest of honour on this occasion was Mr. John Chiang of the EEE Alumni Association. The Rendezvous “bowed off” with a speech and the first roll of a ball by Mr. Chiang. In his speech Mr. Chiang emphasized the importance of networking between students, staff and alumni.

Each team then played three games. Amidst a large number of gutter balls there were also some splendid strikes and even a few turkeys. A number of prizes were up for grabs. When the three games were over, it was time to tally the scores and determine the winners.

The prize-giving ceremony was held immediately after the bowling. Coming in first was ‘Char Kway Teow’ which amassed the enormous total of 2549 points from 3 games. They comfortably beat ‘Anything’ in second, with a total of 2171 points. The individual men’s prize went to Warren from ‘Char Kway Teow’ who finished with 616 points. The individual ladies’ prize went to Gek Ping, also from ‘Char Kway Teow’ with 539 points to her credit. The prize for the first turkey went to Wang Ying Min.

All in all, the Bowling Rendezvous gave all EEE students an excellent informal opportunity to interact with staff and alumni of EEE, and to learn from their seniors about life after graduation.

Visitors to EEE (continued from pg 18)
