Enriching Our Undergraduates

STUDENT-MENTOR SCHEME

The School of EEE has inducted a Student-Mentor Scheme to provide guidance and support to students, thereby creating a conducive and caring environment for students to excel in his/her academic pursuits. In this scheme, each academic staff will assume a leading and proactive role of an academic mentor. Every student will be able to benefit from this scheme towards the objective of achieving a good university education and degree, and success in future endeavors. Students can seek friendly informed advice and guidance in areas of their study, such as course structure, subject registration, time management, etc., from their individual mentors. Mentors can also serve as referees for International Student Exchange Programme (INSTEP) application, DUO-Singapore Exchange Fellowship Award, career application, etc. and provide guidance on entrepreneurship, career choice, and advancement in industry as well as research and academic opportunities in the universities and research institutions.

STAFF-STUDENT COMMITTEE

There is a Staff-Student Committee in the School comprising staff and student representatives. Its primary roles are to facilitate the link between the School and students in the pursuit of academic excellence and to improve the operation of the School through constant feedback from students.

INTERNATIONAL STUDENT EXCHANGE PROGRAMME (INSTEP)

INSTEP is a once-a-life-time opportunity for undergraduate students to spend a few months at a good foreign university, experience life and learning in a new and interesting environment, and still be able to continue with their university studies uninterrupted. Students are able to take subjects that are not available in NTU, study and build friendships with students of different nationalities, abilities, and backgrounds. They will get cross-cultural exposure, visit new places and learn about another country.
