Nanyang President's Graduate Scholarship (NPGS) 2009

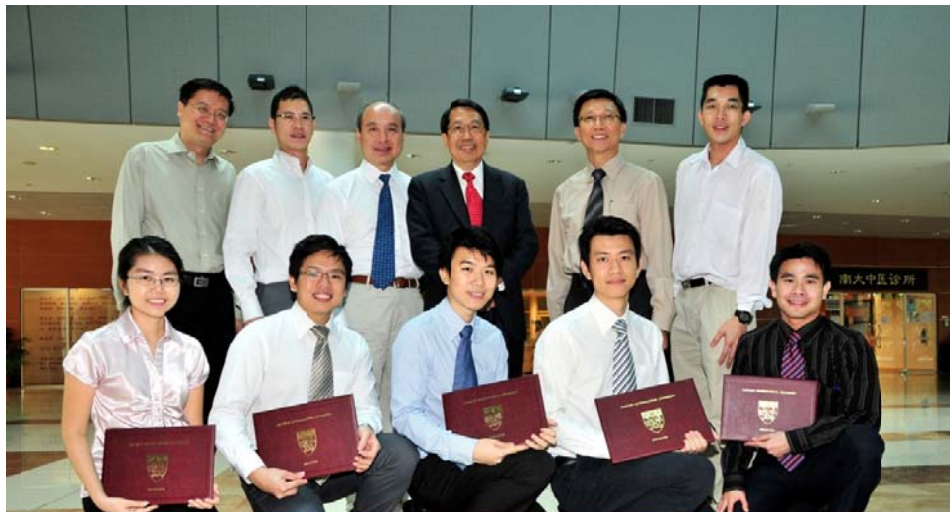

In recognition of academic excellence and leadership potential, Nanyang Technological University (NTU) has been offering a variety of scholarships to graduate and undergraduate students. Among the many scholarships are: the inaugural Nanyang President's Graduate Scholarship (NPGS) which prepares top graduates or final-year students for global research leadership through doctoral studies; and the prestigious Nanyang Scholarship for bright and talented freshmen from junior colleges and local polytechnics to pursue undergraduate education.

The competitive scholarship scheme was launched in March 2008 to encourage talented graduates and final year students to take their first step towards a leading research career by pursuing a doctoral degree programme at NTU.

The bond-free scholarship is open to students of all nationalities with first-class honours degrees - or equivalent at the bachelor's level - and a strong passion for research and exceptional leadership qualities. Funding will be provided by NTU for up to four years of PhD studies, covering monthly stipend, tuition fees and other allowances.

Our heartiest congratulations to School of EEE recipients for the Nanyang President's Graduate Scholarship:

S/No.	Name of Students	Division	Supervisor
1	Sit Wing Yee	Control & Instrumentation	Mao Kezhi (A/P)
2	Tan Chin Hock	Communication Engineering	Ting See Ho (Ast/P)
3	Chong Sau Siong	Circuits & Systems	Tan Meng Tong (Ast/P)
4	Tang Howard	Circuits & Systems	Siek Liter (A/P)
5	Yap Chin Chong	Microelectronics	Tay Beng Kang (Prof)

School of EEE recipients for Nanyang President's Graduate Scholarships with President of NTU Dr Su Guanng, Dean-College of Engineering Professor Pan Tso-Chien, Chair of EEE Professor Kam Chan Hin and EEE faculty members.
