Jurong Lake District to be test bed for ‘smart nation’

Innovations include traffic sensors, apps to locate covered walkways

By IRENE THAM

Jurong East MRT station to nearby Lake District will become a mini version of a “smart city” with more surveillance cameras and traffic sensors. It is one of several pilot projects that will be rolled out as part of the Government’s efforts to turn Singapore into a “smart nation”.

The Sengkang Community Club

The Sengkang Community Club in Sengkang District was yesterday named as one of the sites to deploy innovations to become a “smart city”. This will allow mobile users to switch to another cellular provider, or to Wi-Fi operators when, for instance, the Ministry of Home Affairs and the Land Transport Authority have been setting up more surveillance cameras and sensors across Singapore, but those efforts and not to be coordi

The Sengkang Community Club in Sengkang District has been chosen as a test bed for the Government’s efforts to turn Singapore into a “smart city.”

The club will have a number of initiatives rolled out as part of the “smart city” project, including the installation of more surveillance cameras and sensors.

The club is one of several venues that have been chosen as test beds for the Government’s “smart city” initiative. The other venues are the Punggol Waterway Park and the Yio Chu Kang Sports Centre.

The club has been chosen because it is located in a busy area and has a large number of visitors.

The club’s management has been approached by the Government to be part of the “smart city” project.

The club’s management has agreed to participate in the project and has been working with the Government to implement the necessary changes.

The club’s management has said that it is looking forward to the changes and the new technology that will be introduced.

The club has said that it will have a number of new initiatives rolled out as part of the “smart city” project. These initiatives will include the installation of more surveillance cameras and sensors.

The club has said that it will also have a number of new apps developed for its members. These apps will include apps to locate covered walkways and apps to find bus stops.
