

“ICO’04, Tokyo”

Oct. 30. 2002

, jointly held with “ODF’04 & ICOSN’04”

**2004 ICO International Conference,
Optics & Photonics in Technology Frontier**

held together with InterOpto ’04

13-15 July 2004

Makuhari Messe, Chiba, Japan

Organized and Sponsored by **OSJ** (Optical Society of Japan/JSAP) and **ICO** (International Commission for Optics) in cooperation with EOS, OSA, OSK, COS, IEEE/LEOS, SPIE, IEICE, OITDA, JOEM & Others.

Scope: Rapid progress is being achieved in the field of optics and photonics, especially in relation to applications in information and communication technologies, and new applications in nano- and bio-technologies are coming to light in the technology frontier. The ICO bureau has given approval for the Optical Society of Japan (OSJ) with the ICO Committee in Japan, to host the next ICO topical meeting in 2004. (ICO meetings have been held in Japan every 10 years since 1964.) **ICO '04** will be held at the same conference site as **InterOpto '04**, the biggest optics & photonics industrial annual exposition in Japan to provide an excellent opportunity for interaction between academia and industry, and will be held together with two other well-known international conferences organized by OSJ, **ODF '04** (Optics-photonics design & fabrication) and **ICOSN'04** (International conference of sensing and nano-technology).

ICO'04 will provide an international forum for exchanging leading-edge ideas and achievements through original paper presentations, and discussions of optics-photonics related scientific and industrial topics in the fields of design, simulation, fabrication and testing for the system and components such as Information optics, Fiber communications, Bio-photonics, Storage, Measurement, Camera, Microscopy, Lithography, Printings, 3-dimensional displays and others.

Paper Submissions Due by: January 31, 2004

Executive Committee Members

Organizing Committee:

Chair: Y. Ichioka (Nara Nat. College of Tech.)

Vice-Chair: K. Yamamoto (Olympus)

Steering Committee:

Chair: K. Tatsuno (Hitachi)

Vice-Chair: K. Maruyama (Pentax)

Program Committee:

Chair: T. Yatagai (Tsukuba Univ.)

Vice-Chair: T. Shimura (Univ. of Tokyo)

ICO Bureau:

R. Dändliker (Neuchatel Univ.)

I. Yamaguchi (Gunma Univ.)
