MEDICAL EXAMINATION

All students **must** undergo a medical examination prior to admission to the University. This is to determine their medical fitness to pursue their programme of study in the University.

In order that the University may have a complete medical record of its students, we have arranged for new students to have their medical examination done at the Medical Centre in NTU. The medical examination includes Urine Tests and Chest X-ray. The fee is \$25 (GST inclusive). For students who are reading the double degree programme in Biomedical Sciences and Chinese Medicine, the medical examination fee which includes the cost of the compulsory Hepatitis B screening blood test is \$42 (GST inclusive).

We have scheduled for returning national servicemen who are enrolling for the programme reserved in academic year 2009-10 to have their medical examination done earlier to avoid overcrowding. The schedule is given in Annex 1.

A Medical Examination Form (Paper No. MC1) is enclosed. Please complete the form and bring it along to the Medical Centre on the day of the medical examination. Chest X-ray should be done only after your medical examination.

The Schedule for Medical Examination and Paper No. MCI are also available at http://www.ntu.edu.sg/oad2/forms/online_applicationforms.html

If you are unable to have your medical examination done at the stipulated date, please contact the Medical Centre at **6793 6828/6974** for another date. Alternatively, you may have it done by any other registered physician. The medical examination form completed by the physician must be sent to the Medical Centre together with the X-ray report.

If you are not enrolling in academic year 2009-10, medical check-up is not required at this point of time.
