NTU. SMART CAMPUS, SMARTER THINKING

**UNDERGRADUATE
SCHOLARSHIPS**

MAKE A SMART CHOICE FOR YOUR FUTURE

Ranked the world's top young university for five consecutive years and 12th amongst all universities, Nanyang Technological University (NTU) is where outstanding minds come together to learn, interact, grow and shape a better tomorrow.

Here, you will be immersed in a Smart Campus brimming with exciting new technologies, such as our innovative flipped classroom where you can move from digital lessons to lively discussions in smart classrooms. NTU is also where you can get global exposure and internships at leading companies, receive a holistic education and prepare yourself for the working world or even for jobs that do not even exist today!

Our interdisciplinary and research-focused curriculum prepares our students well for the working world. As an NTU student, you will have the freedom to explore disciplines outside your core field of study. With mentorship from some of the finest minds in academia, state-of-the-art learning facilities and exciting co-curricular activities, plenty of opportunities await you.

NTU offers global exchanges and internship opportunities with the goal of having eight in 10 of our undergraduates going overseas at least once during their studies. You may find yourself spending a semester at a university in the US, UK, Sweden, Japan, South Korea and more. You might even be serving your internship with one of our industry partners such as Rolls-Royce, BMW and Lockheed Martin.

Above all, we aim to give our students an exceptional learning experience, within and beyond the formal curriculum. Are you ready to unlock your truest potential with us?

Take the next step towards the future of your dreams with the NTU Scholarship. Outstanding students who wish to enrich their experience, maximise their potential and cultivate life-long skills in university should apply for the various scholarships offered by NTU.

Some of the more prestigious scholarships offered by NTU include:

- Renaissance Engineering Programme (REP) Scholarship;
- NTU-University Scholars Programme (NTU-USP) Scholarship; and
- Nanyang Scholarship (CN Yang Scholars Programme).

Scholarship holders will be granted support in tuition fees, as well as provided with other financial and non-financial incentives.

Such opportunities give our scholars an edge as they work towards becoming game-changers in school, at work, in the community and in the world.

Read on to discover what some of our NTU Scholarship holders have to share about their journey with NTU.

Through the REP, I received the opportunity to discover the basics of various engineering disciplines in my first year, before picking an area of specialisation.

Low Heek Hong

Renaissance Engineering Programme (REP)
Specialisation in Computer Science, Year 4
College of Engineering
REP Scholarship

MY GLOBAL CLASSROOM

The Renaissance Engineering Programme (REP) has opened my world to different engineering fields that I had little chance to experience during my 12 years of general education. Through the REP, I received the opportunity to discover the basics of various engineering disciplines in my first year, before picking an area of specialisation.

It is thanks to the REP Scholarship that I have received a global education. The scholarship, on top of supporting my education expenses in NTU, covered the basic expenses for my year-long study trip to the University of California, Berkeley (UC Berkeley). This global experience was a crucial milestone in my education; it widened my perspective of the world and deepened my understanding of cultural differences. Furthermore, because the university was located in the bay area where many start-ups are based, my peers and I got to experience the entrepreneurial culture of UC Berkeley. I returned from Silicon Valley, deeply inspired by its culture of innovation, and filled with the drive to explore further and bring it to Singapore.

Next summer, I will be embarking on another internship – this time, at Palantir Technologies, one of the most prominent data analytics companies in the Valley, where I hope to gain immense industrial experience.

Besides enriching my knowledge with its excellent curriculum, REP has given me a place in a close-knit community of highly motivated peers. Here, everyone strives for constant personal improvement both within and beyond the curriculum while encouraging one another to soar to greater heights.

NTU places strong emphasis on teamwork. We often form teams within the NTU community to participate in local and overseas competitions. I have been part of teams that won multiple top prizes in competitions such as the Singapore Airlines AppChallenge, Facebook Singapore Hack and CruzHacks (United States). Such experiences have helped us grow as well as learn industry-relevant skills, equipping us with wisdom that cannot be learnt in the classroom.

I am grateful for the NTU-USP Scholarship for generously supporting my education expenses and providing me with abundant avenues to explore my interests.

Celine Koh Jing Xian

Communication Studies, Year 3
Wee Kim Wee School of Communication and Information
College of Humanities, Arts, and Social Sciences
NTU-University Scholars Programme (NTU-USP)
NTU-USP Scholarship

MASTER OF MULTIPLE DISCIPLINES

The multidisciplinary curriculum in the NTU-University Scholars Programme (NTU-USP) stood out to me because it not only complemented my major in Communication Studies; it could also expand my horizons by letting me explore other disciplines such as astronomy and science.

NTU-USP has enabled me to step out of my comfort zone and study abroad. During my first year in NTU, I had the opportunity to take on an overseas fieldwork module in Vietnam. In Year 2, I went on a highly subsidised exchange programme to Boston for six months. Highly memorable, this experience opened my eyes to a whole new culture, enabled me to forge international friendships and shaped me into a confident and adaptable global citizen. I also attended the annual University Scholars Leadership Symposium (USLS) in Bangkok for a week where I rubbed shoulders with international scholars and discussed global humanitarian issues.

My third year saw me taking more steps to grow and challenge myself. I ran for the position of NTU-USP Student Club's Director of Publicity and Public Relations, which gave me an avenue to develop my leadership potential.

I have also had the privilege of attending annual sharing sessions with Ministers and NTU alumnus. These events, organised by NTU-USP, are extremely useful in providing insights into upcoming trends in society to prepare us for the workforce.

Additionally, the intellectually stimulating discussions within the small class sizes have challenged and shaped me into a critical thinker with soft skills that will maximise my potential in this ever-evolving world.

I am grateful for the NTU-USP Scholarship for generously supporting my education expenses and providing me with abundant avenues to explore my interests.

NTU has done so much for me by offering opportunities for research exposure and attachments, broadening my horizons and developing my theoretical and practical knowledge.

Hsu Chung Chuan

Physics & Applied Physics, Year 2
School of Physical and Mathematical Sciences
College of Science
CN Yang Scholars Programme
Nanyang Scholarship (CN Yang Scholars Programme)

A PROMISING FUTURE IN RESEARCH

I aspire to pursue a PhD, contribute to the research and development sector, and one day, achieve professorship. I believe that NTU has much to offer in guiding me towards reaching my goal. NTU has done so much for me by offering opportunities for research exposure and attachments, broadening my horizons and developing my theoretical and practical knowledge.

The CN Yang Scholars Programme (CNYSP) offers a wide array of modules in multidisciplinary science and humanities-related modules to build up students' research expertise. As a result, I was able to open my eyes to subjects beyond my core area of study, such as Philosophy and Ethics modules.

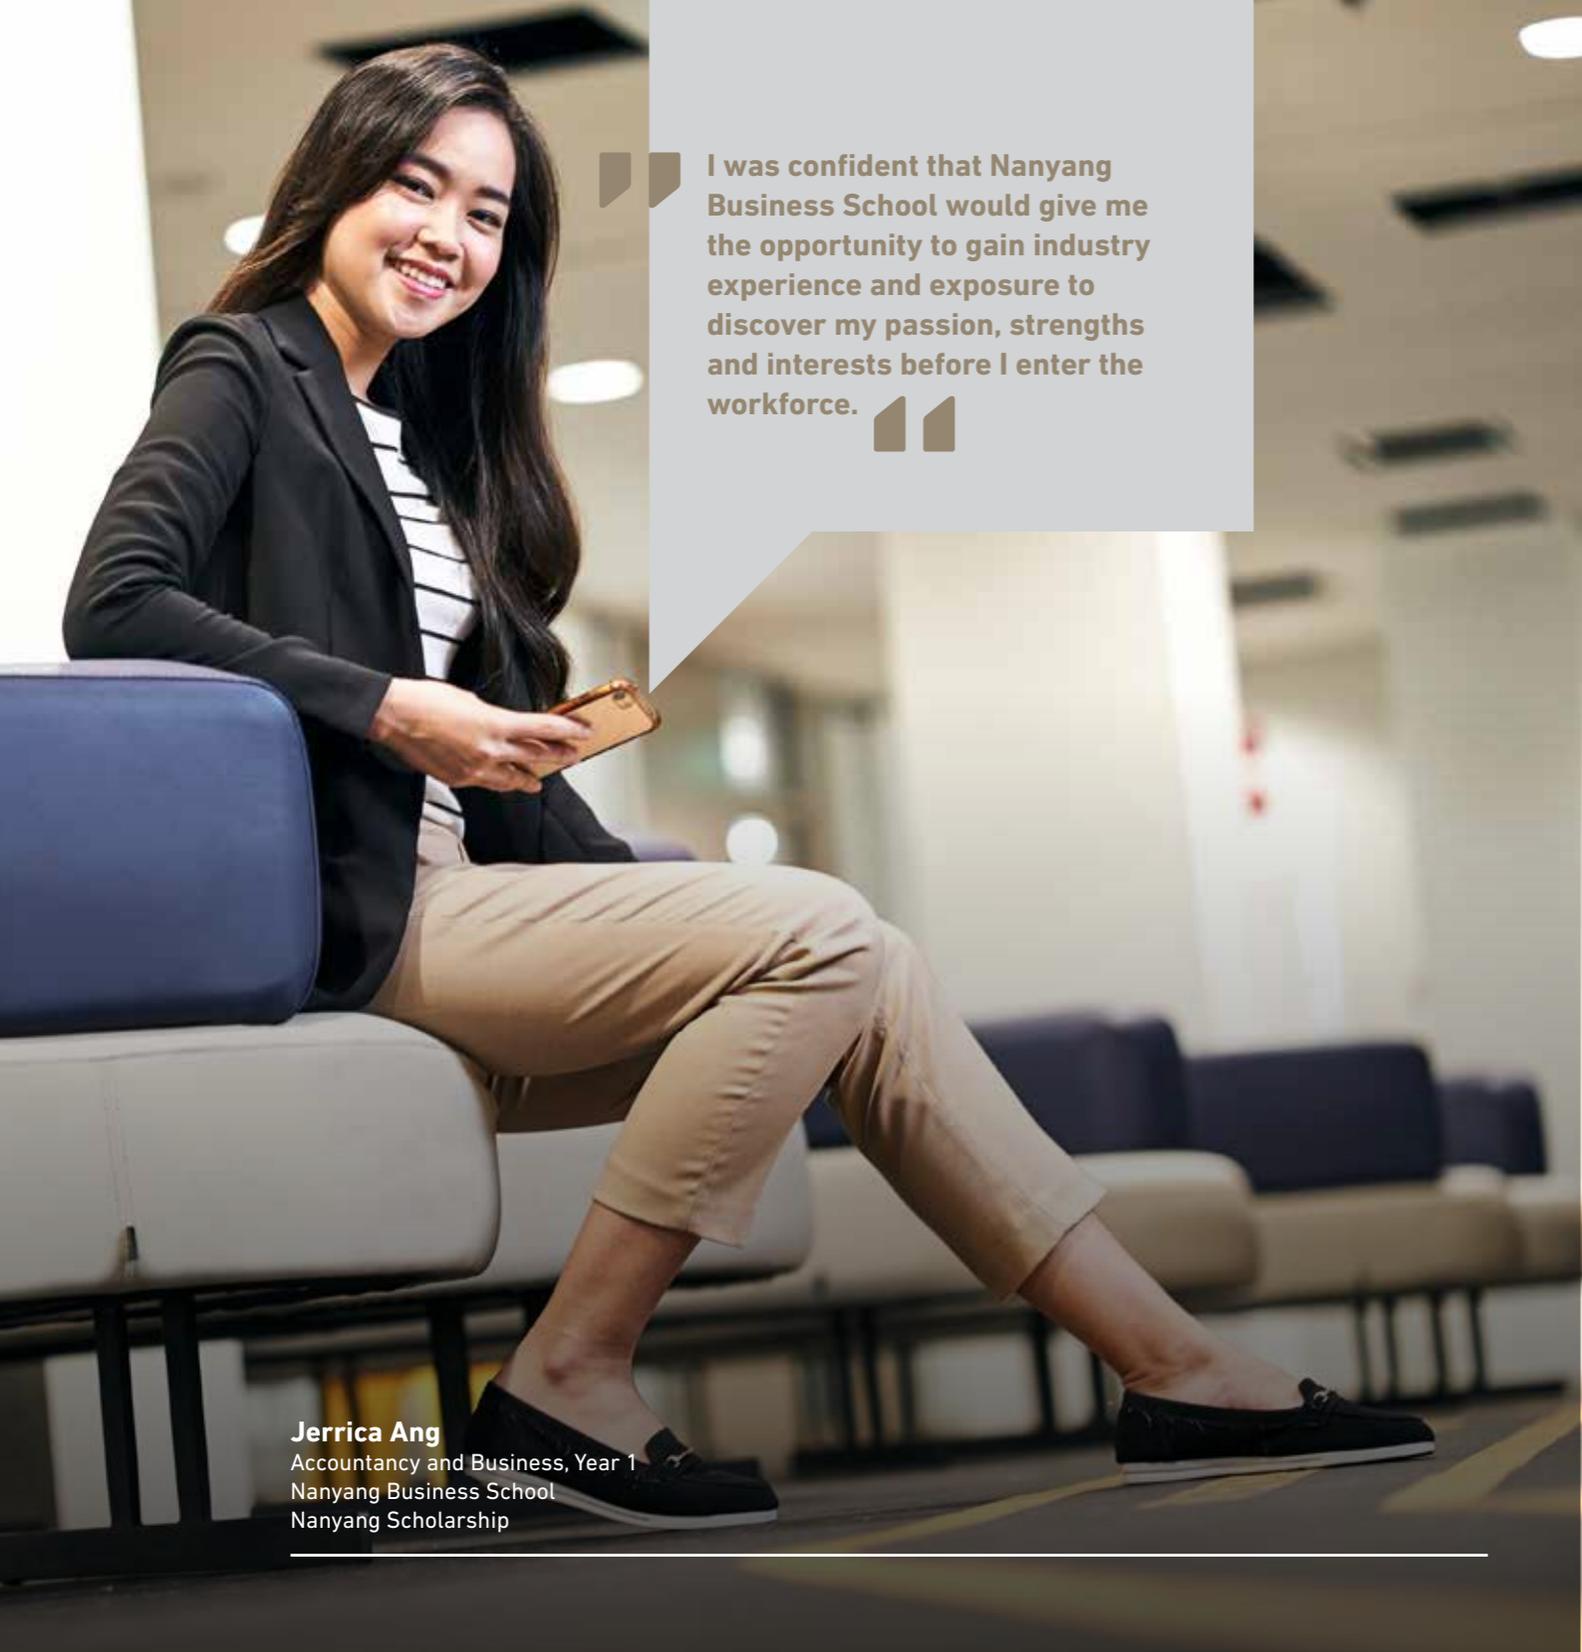

Being part of the programme has given me opportunities to take on research attachments as early as my first year. The various research attachments offered have allowed me to seek professor and mentor guidance from different departments of specialisation that range from Quantum Physics to Acoustics. These have helped me to become an independent thinker, and equipped me with skills to better defend my research findings,

orally and analytically. In addition, there are opportunities to attend an international conference with subsidies provided.

The CNYSP offers a plethora of Team-Based Learning (TBL) and Technology-Enabled Learning (TEL). This experience builds upon and improves our public speaking and interpersonal skills.

I am thankful for receiving the Nanyang Scholarship (CNYSP). The scholarship covers fees for our exchanges at partner universities, which would otherwise be a significant financial burden. As I am planning to go for exchange next year, the generous travel allowance will help me in financing my overseas exchange and enable me to gain international exposure, both culturally and academically.

I often say that the process of doing research and the enlightenment of figuring something difficult out is highly rewarding. At NTU, I have a community where I can discuss my findings with like-minded individuals and learn from them in many ways, whether big or small. I know I have found my place where I can learn, grow, and see my aspirations come to fruition.

I was confident that Nanyang Business School would give me the opportunity to gain industry experience and exposure to discover my passion, strengths and interests before I enter the workforce.

Jerrica Ang

Accountancy and Business, Year 1
Nanyang Business School
Nanyang Scholarship

PUSHING BOUNDARIES

I picked NTU because it offers a highly holistic programme for a degree in Accountancy and Business. It allows me to pursue a double degree with direct honours which offers both breadth and depth in learning, in a relatively short span of four years. Furthermore, I was confident that Nanyang Business School would give me the opportunity to gain industry experience and exposure to discover my passion, strengths and interests before I enter the workforce.

The Nanyang Scholarship relieves my family's financial burden while enabling me to fully immerse myself in the wholesome university experience that NTU provides. Its bond-free nature means that I will be able to explore the various options I have after graduation without restrictions that typically come along with sponsorships. I have benefited from extensive coverage for financial matters such as full coverage of subsidised tuition fees, accommodation allowance, and a travel grant for overseas learning trips.

Hall accommodation, of which the scholarship provides coverage of up to S\$2000 per academic year, has been enjoyable and fulfilling. I have become more independent and also learnt the importance of compromise when living with other people. Hall life has also given me the opportunity to try something I have always wanted to – acting. I am currently taking part in my hall's theatre productions despite not having any background in the field. Such experiences, fuelled by the encouraging and accepting people I have met, have given me a platform to step out of my comfort zone and enrich my hall experience.

Being on scholarship motivates me to work even harder to achieve more so that I can give back to those who have brought me here thus far.

When I received the scholarship, I was excited to dive into the ocean of knowledge available around me and discover my purpose in life after school.

Husain Bin Abdul Rahim

Public Policy and Global Affairs with Second Major in Philosophy, Year 4
School of Social Sciences
College of Humanities, Arts, and Social Sciences
College Scholarship

AN OCEAN OF POSSIBILITIES

I picked NTU for its amazing courses, such as my major – Public Policy and Global Affairs. Learning about policies, politics and the political philosophies of different thinkers and countries has equipped me with a better understanding of making a positive change in society and the world at large.

Thanks to the College Scholarship, I have had what I feel has been the most eye-opening and enriching experience of my life. When I received the scholarship, I was excited to dive into the ocean of knowledge available around me and discover my purpose in life after school. I gained the confidence to try out different subjects to satiate my undying thirst for knowledge – all with peace of mind knowing that my financial burden was taken care of.

I learnt French and Arabic, took a second major in Philosophy and joined many classes to further my knowledge to improve myself as an ethical human being. I also got to try my hand at teaching when I interned at a secondary school. Learning to

manage an entire class while delivering lessons within a short time period was challenging, but knowing that my students enjoyed my lessons was worth it!

Residing on campus has enabled me to form deeper bonds with my hall mates, learn to become more independent, and gain useful time management skills.

NTU provides a world of possibilities outside the classroom as well. As a member of the NTU Muslim Society, I have gained much experience in magazine publishing, events planning and more. Here's where I honed my leadership and teamwork skills – qualities that I am sure will take me far in life.

I can certainly say I am more prepared to face life now as compared to four years ago, so thank you, NTU!

SCHOLARSHIPS FOR FRESHMEN

FULL-TERM SCHOLARSHIPS

NTU offers a variety of scholarships to new students pursuing their full-time undergraduate studies at NTU.

Renaissance Engineering Programme (REP) Scholarship

Eligibility

- Open to Singapore Citizens and Singapore Permanent Residents. Successful awardees should read a full-time undergraduate Renaissance Engineering Programme (REP) in NTU.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma or IB Diploma qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$6,000 per academic year for all years except in Year 3 (allowances for Year 3 will be determined by REP office);
- Book allowance of S\$500 per academic year;
- Accommodation allowance of up to S\$2,000 per academic year (applicable to scholarship holders who reside in NTU hostels only);
- Computer allowance of S\$1,750 (one-off);
- Overseas Benefits to Year 3 Students:
 - Tuition Fees at the partner university
 - Overseas accommodation

No bond attached, apart from the three-year bond applicable to all Singapore PRs under the MOE Tuition Grant Scheme.

NTU-University Scholars Programme (NTU-USP) Scholarship

Eligibility

- Open to all nationalities.
- Successful awardees should be on the NTU-University Scholars Programme (NTU-USP).
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma, IB Diploma or Year 12 equivalent qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$6,500 per academic year;
- Accommodation allowance of up to S\$2,000 per academic year (applicable to scholarship holders who reside in NTU hostels only);
- Travel grant of S\$5,000 for an overseas study/attachment programme (once only) subject to terms and conditions in the Travel Grant Form;
- Computer allowance of S\$1,750 (one-off);
- Overseas benefits in the semester of the NTU-USP Study Abroad or NTU Exchange Programme.

No bond attached, apart from the three-year bond applicable to all Singapore PRs and international students under the MOE Tuition Grant Scheme.

Nanyang Scholarship (CN Yang Scholars Programme)

Eligibility

- Open to all nationalities.
- Successful awardees should be on the CN Yang Scholars Programme.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma, IB Diploma or Year 12 equivalent qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$6,500 per academic year;
- Accommodation allowance of up to S\$2,000 per academic year (applicable to scholarship holders who reside in NTU hostels only);
- Travel grant of S\$5,000 for an overseas programme (one-off);
- Computer allowance of S\$1,750 (one-off);
- The CN Yang Scholars Programme offers:
 - Guaranteed four years of stay in NTU halls of residence
 - Guaranteed overseas exchange for one semester
 - Guaranteed overseas final year research project with coverage for airfare, accommodation, meals, insurance and visa fees;
 - Opportunities for research attachment from year one onwards and to attend an international conference with subsidy.

No bond attached, apart from the three-year bond applicable to all Singapore PRs and international students under the MOE Tuition Grant Scheme.

E. W. Barker Scholarship

Eligibility

- Open to Singapore Citizens and Singapore Permanent Residents.
- Successful awardees should read a full-time undergraduate Sport Science & Management Programme in NTU.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, Singapore Sports School AUT Diploma, NUS High School Diploma or IB Diploma qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- S\$8,000 award (one-off) per academic year.

No bond attached, apart from the three-year bond applicable to all Singapore PRs under the MOE Tuition Grant Scheme.

Nanyang Scholarship

Eligibility

- Open to all nationalities.
- Successful awardees should read a full-time undergraduate degree programme in NTU.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma, IB Diploma or Year 12 equivalent qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$6,500 per academic year;
- Accommodation allowance of up to S\$2,000 per academic year (applicable to scholarship holders who reside in NTU hostels only);
- Travel grant of S\$5,000 for an overseas programme (one-off);
- Computer allowance of S\$1,750 (one-off);
- Priority for Overseas Programme.

No bond attached, apart from the three-year bond applicable to all Singapore PRs and international students under the MOE Tuition Grant Scheme.

College Scholarship

Eligibility

- Open to all nationalities.
- Successful awardees should read a full-time undergraduate degree programme in NTU.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma, IB Diploma or Year 12 equivalent qualifications.
- Those with good co-curricular records, leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$3,600 per academic year.

No bond attached, apart from the three-year bond applicable to all Singapore PRs and international students under the MOE Tuition Grant Scheme.

Humanities, Arts, and Social Sciences Scholarship

Eligibility

- Open to all nationalities.
- Successful awardees should read a full-time humanities, arts, and social sciences undergraduate degree programme, which is offered by the School of Art, Design and Media, School of Humanities, School of Social Sciences, or Wee Kim Wee School of Communication and Information. The scholarship will cover the years of study at NTU.
- Possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a polytechnic in Singapore, NUS High School Diploma, IB Diploma or Year 12 equivalent qualifications.
- Those with good co-curricular records, leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Travel grant of S\$3,000 for an overseas programme (one-off) on condition that the scholarship holder attain at least one semester of Cumulative Grade Point Average (CGPA) of 4.50 over 5.0, any time after completing one year of studies (two full semesters) in a humanities, arts, and social sciences undergraduate degree programme.

No bond attached, apart from the three-year bond applicable to all Singapore PRs and international students under the MOE Tuition Grant Scheme.

LKCMedicine Scholarship

Eligibility

- Open to Singapore Citizens.
- Successful awardees should read a full-time undergraduate Medicine Programme in NTU.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma or IB Diploma qualifications.
- Those with outstanding contributions or attributes in other areas such as community service, student leadership, or sporting excellence, are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$6,000 per academic year;
- Book allowance of S\$500 per academic year;
- Computer allowance of S\$1,500 (one-off).

No bond attached, apart from the five-year bond with the Ministry of Health upon completion of the undergraduate programme.

LKY-STEP Award

Eligibility

- Open to Singapore Citizens and Singapore Permanent Residents.
- Successful awardees should read a full-time undergraduate degree programme in NTU.
- Applicants should possess outstanding Diploma (preferably Diploma with Merit) awarded by a Polytechnic in Singapore or SIT (Poly-FSI) qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- S\$3,500 cash award (one-off);
- Waiver of subsidised tuition fees (after tuition grant) by NTU if LKY-STEP Award holders are unsuccessful in securing a concurrent scholarship.

No bond attached, apart from the three-year bond applicable to all Singapore PRs under the MOE Tuition Grant Scheme.

Toh Kian Chui Scholarship

Eligibility

- Open to Singapore Citizens.
- Successful awardees should read a full-time undergraduate Medicine Programme in NTU.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma or IB Diploma qualifications.
- Those with outstanding contributions or attributes in other areas such as community service, student leadership, or sporting excellence, are at an advantage.
- Preference will be given to students from lower income families.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$6,000 per academic year;
- Book allowance of S\$500 per academic year.

No bond attached, apart from the five-year bond with the Ministry of Health upon completion of the undergraduate programme.

University Engineering Scholarship (UES)

Eligibility

- Open to Singapore Citizens and Singapore Permanent Residents.
- Successful awardees should read a full-time undergraduate Engineering or Technology-related programme in NTU.
- Applicants should possess outstanding Diploma (preferably Diploma with Merit) in Engineering or Technology-related courses awarded by a Polytechnic in Singapore.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$5,800 per academic year;
- Computer allowance of S\$2,000 (one-off).

Scholarship holder, upon completion of the programme, will have to serve a 4-year bond working in the Engineering-related field in Singapore.

Wee Cho Yaw Future Leaders Award

Eligibility

- Open to Singapore Citizens and Singapore Permanent Residents.
- Successful awardees should read a full-time undergraduate degree programme in NTU.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma or IB Diploma qualifications.
- Those with outstanding contributions or attributes in other areas such as community service, student leadership, or sporting excellence, are at an advantage.
- Preference will be given to students from lower income families.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$12,000 per academic year;
- Overseas allowance of S\$16,000.

No bond attached, apart from the three-year bond applicable to all Singapore PRs under the MOE Tuition Grant Scheme.

Wee Kim Wee Legacy Fund Undergraduate Scholarship

Eligibility

- Open to Singapore Citizens and Singapore Permanent Residents.
- Successful awardees should read a full-time undergraduate Communication Studies Programme in NTU.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' Level, Diploma awarded by a Polytechnic in Singapore, NUS High School Diploma or IB Diploma qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$6,000 per academic year.

No bond attached, apart from the three-year bond applicable to all Singapore PRs under the MOE Tuition Grant Scheme.

ASEAN Undergraduate Scholarship

Eligibility

- Open to Singapore Permanent Residents and Citizens from ASEAN countries (except Singapore).
- Successful awardees should read a full-time undergraduate degree programme in NTU, with the exception of Renaissance Engineering Programme.
- Applicants should possess outstanding Singapore-Cambridge GCE 'A' level, Diploma awarded by a polytechnic in Singapore, NUS High School Diploma, IB Diploma or Year 12 equivalent qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant);
- Living allowance of S\$5,800 per academic year.

No bond attached, apart from the three-year bond applicable to all Singapore PRs and international students under the MOE Tuition Grant Scheme.

NTU Science and Engineering Undergraduate Scholarship

Eligibility

- Open to Singapore Permanent Residents and Citizens from Asian countries (except Singapore).
- Successful awardees should read a full-time undergraduate Engineering or Science programme in NTU, with the exception of Biomedical Sciences & Chinese Medicine Programme, Renaissance Engineering Programme, and Medicine.
- Applicants should possess outstanding Year 12 qualifications.
- Those with excellent co-curricular records and strong leadership qualities and potential are at an advantage.

Benefits

- Full coverage of subsidised tuition fees (after tuition grant) and all compulsory miscellaneous fees;
- Living allowance of S\$6,000 per academic year;
- Annual accommodation allowance pegged at the lowest double room rate for on-campus accommodation;
- Settling-in allowance of S\$200 (one-off);
- One-way air passage from home country to Singapore at the commencement of the programme and a return air passage upon completion of the programme.

Scholarship holder will be required to serve a six-year bond with the sponsor or organisation as directed by the sponsor, or if not so required to serve, work in a Singapore-registered company.

HOW TO APPLY FOR FULL-TERM SCHOLARSHIPS

- STEP 1** Submit your online admission application form to NTU at www.ntu.edu.sg/admissions. Applications for admission and scholarship will close on the same date.
- STEP 2** Upon submission of your online admission application form, the "Application for Scholarship" link will appear.
- STEP 3** Click on the "Application for Scholarship" link, key in your assigned admission application number, and complete the online application for the scholarship. You just need to complete and submit one application regardless of the number of scholarships you may be interested in. An essay of not more than 300 words is required.
- STEP 4** Submit your scholarship application. After submission, you will be prompted to upload a recent passport-size photo and you will be given a URL to be forwarded to your school teacher and he/she is to submit an online appraisal to us within 7 days. If you are applying for need-based scholarships, a document checklist will be provided for you to upload the relevant ID and income documents to us.

SCHOLARSHIPS FOR EXISTING STUDENTS

SHORT-TERM SCHOLARSHIPS

- These scholarships are open to current undergraduates or freshmen on subsidised tuition fees who have performed well academically and meet the criteria as specified by the donor of the scholarship.
- The scholarships are tenable only for the academic year awarded and the value of the scholarships range from S\$3,000 to S\$16,000.
- Freshmen can submit their online application only two days after they have matriculated online. Shortlisted candidates will be notified to attend an interview between August and September.

For more details, please visit www.ntu.edu.sg/undergraduatescholarships

NTU SCHOLARSHIP INTERVIEW

Frequently Asked Questions

When should I apply?

Do apply for scholarships immediately after or shortly after you have put in your application for admission, instead of waiting for the admission offers to be released. You are encouraged not to defer your application until after your National Service (if applicable). The admission and scholarship application windows are similar.

When will I hear back?

Interviews will take place mainly between March and May. Only shortlisted applicants will be notified via email to attend an interview. So do check your email regularly. Be prepared to attend an interview at short notice (ie. a few days' notice).

Who will interview me?

You may be interviewed by the scholarship panel comprising academic and administrative staff. The number of panel members and composition will vary from school to school.

What happens after the interview?

You may expect an email informing you of the outcome within 2-3 weeks, unless you have been informed otherwise. To ascertain when you can expect to receive the outcome, you may either check with the party that sent you the interview invite or check with the staff at the interview itself.

YOUR WARDROBE GUIDE TO NTU SCHOLARSHIP INTERVIEWS

(Credits to Hey! magazine)

For Him

Pick an outfit that is not too casual as it may suggest you are not very serious about the scholarship and the interview. Even if you are interviewing for an arts scholarship and would like to show your creative side, a possible ensemble of a preppy sweater-and-shirt combo will be ideal, rather than showing up in a T-shirt and jeans.

To look smart, it is not necessary for a white shirt and black suit combo. You can opt for a coloured suit in blue or grey and a pair of well-polished shoes. In addition, showing up with a tie is always a plus point.

For Her

A note for the ladies, when showing up for an interview in a dress, pick one that is of appropriate fit and length, and in classic shades like navy blue. Complete the look with a pair of comfortable heels. For a top-and-bottom combo, white and grey is definitely a safe colour combination. A simple but interesting blouse with a pair of well-fitting slacks or knee-length skirt, together with simple jewellery, will work.
