REGISTRATION OF COURSES FOR S2 OF AY2007-08

1. Registration Schedule

   Please refer to the detailed schedule on the periods for registration of courses.

   For details on the procedure, please refer to the Full Registration Procedure.

2. Class schedule

   The class schedule will be released through StudentLink on 23 Nov 2007.

   The Class Schedule reflected is current. Specific changes in schedule are shown at Changes to Class Schedule.

3. STARS Planner

   Access to the planner will be granted once the class schedule is released. After planning, students are to submit their timetable for registration on their registration day.

   Relevant user guides: STARS Planner Guide and STARS

4. Students Who Are Pre-allocated Their Core Courses

   Year 1 students from the following programmes and admitted in AY 2007-08 will be pre-allocated their core courses:

   • Accountancy
   • Aerospace Engineering
   • Art, Design & Media
   • Business
   • Common Engineering
   • English
   • Materials Engineering

   Unless otherwise stated in their Schools’ registration instructions, these students may only add their choices of UE and/or GERPE on waitlist on their registration day.

5. Registration for Modern Language Elective (MLE) Level 1 Courses

   Note that admission to all MLE Level 1 courses is restricted to first-time learners only. Students with prior learning time of more than 30 hours in the course in other institutions are not eligible for admission. You may wish to contact Language & Communication Centre (LCC) /MLE at http://www.ntu.edu.sg/hss/lcc/modern%2Blanguage%2Belectives/rules.htm by Week 1 of each semester for a placement test to determine admission to higher levels of MLE courses.
6. **General Education Requirement Prescribed Electives (GERPE) & Unrestricted Electives (UE)**

A student GERPE AU requirement is fixed. He cannot read additional GERPE. Students who are not required to read GERPE or do not have outstanding GERPE courses should not place their choices on waitlist.

In the balloting for GERPE and UE, not all students may be allocated these courses. Though final year students are generally given priority in the allocation, it does not imply that they will always get their first choice. Allocation success depends on the demand and supply. In addition, while the University gives priority to final year students, it also has to allow some lower years students to read the courses.

7. **Minors**

Please click here for the full list of [Minor Programme](#). The AUs earned for the minor are counted towards a student’s UE requirements.

8. **Reminder**

a) Before registering for courses, students should know the following:

- their curriculum structure
- the registration instructions issued by OAS
- the registration instructions issued by their School

b) Certain index numbers of the same courses are allotted to specific programme/study year/specialisation. Students (especially BUS students) should check the class schedule for their programme, study year & specialization (if applicable) and read their Schools’ registration instructions before planning their timetable.

c) Check the registration records in STARS before the end of the Add/Drop Period. Do not check in Edventure. Registered courses will only be reflected in Edventure if the course coordinators place programme materials there.

d) Students who are overloading courses but have not sought their Schools’ approval to register for the courses will be prompted.

Best Wishes,

Office of Academic Services
