STATUTE ENG6

POSTGRADUATE DIPLOMA IN AIRPORT ENGINEERING

The course for the Postgraduate Diploma in Airport Engineering is conducted jointly by the University and the Civil Aviation Authority of Singapore. Likewise the Postgraduate Diploma in Airport Engineering is awarded jointly by these two bodies.

1. For admission as a candidate for the Postgraduate Diploma in Airport Engineering, a person must -
   
   (a) be an engineering graduate of this University or such graduate of another university as the Academic Board may approve; or
   
   (b) possess such qualifications and experience as are acceptable to the Academic Board.

2. The Academic Board may terminate the candidature of a candidate for the Postgraduate Diploma whose progress has not been satisfactory.

3. The minimum period of candidature for the Postgraduate Diploma is eleven weeks of full-time study and the maximum period is forty-eight months.

4. A candidate for the Postgraduate Diploma must register as a student of the University during each academic year of his candidature and pay the fees prescribed.

5. During the period of study for the Postgraduate Diploma, a candidate must pursue such courses of study and take such examinations as may be prescribed by Regulations made by the Academic Board on the advice of the School of Civil and Structural Engineering after consultation with the Civil Aviation Authority of Singapore.

6. Subject to clause 7 of this Statute, a candidate may be awarded the Postgraduate Diploma in Airport Engineering if he has:
   
   (a) fulfilled all the requirements of this Statute;
   
   (b) passed all the examinations prescribed by Regulations as leading to the Postgraduate Diploma; and
   
   (c) paid all fees prescribed.

7. The Academic Board may, on the recommendation of the School of Civil and Structural Engineering which shall take into account the opinion of the Civil Aviation Authority of Singapore, grant such exemptions as it thinks fit from any of the requirements of this Statute.
REGULATIONS MADE UNDER STATUTE ENG6

Subjects of Study

1. The course leading to the Postgraduate Diploma in Airport Engineering shall comprise three modules, namely:

- Module I  C6201  Airport System & Planning
- Module II C6202  Airport Design & Construction
- Module III C6203  Airport Maintenance

2. Each module will consist of one or more of the following components:

   (a) lectures;
   (b) design/project/case study sessions; and
   (c) field visits.

   A candidate for the Postgraduate Diploma may offer one or more modules in any one year and in any order he may choose.

3. An examination comprising two papers will be held on completion of each module.

4. No candidate may take an examination unless he has followed the prescribed course of study for each module to the satisfaction of the Director of the Centre for Transportation Studies.

5. The results of the written examinations will be submitted to the Academic Board.

6. A candidate who fails in any module may be permitted to take the examination again once only for that module provided that this is done within the maximum period of his candidature.
