**JuaraNews, Bandung** – Member of Commission III and Chair of the Democratic Party Faction of the West Java Regional People's Representative Council (DPRD), Hj. Ratnawati, expressed her appreciation for the impressive achievements of the Coordinating Minister for Infrastructure and Regional Development, Agus Harimurti Yudhoyono (AHY).

Coordinating Minister AHY has once again brought honor to Indonesia's name on the international stage after being awarded the Nanyang Distinguished Alumni Award 2025, the highest honor for alumni of Nanyang Technological University (NTU) Singapore.

The prestigious award was presented on Friday (November 21, 2025). NTU recognized AHY as a figure who has made significant and influential contributions to society, the nation, and the global community.

His dedication to strengthening national development and expanding infrastructure access was one of the main reasons for the election of the son of the 6th President of the Republic of Indonesia, Susilo Bambang Yudhoyono.

Since its inception in 2005, the Nanyang Alumni Awards have been NTU's way of showing appreciation to alumni who have achieved success at the national, regional, and international levels.

Of the four categories, the Nanyang Distinguished Alumni Award is the highest level and is only awarded to individuals with an extraordinary track record.

Hj. Ratnawati expressed her appreciation and congratulations for this achievement. She considered the award not only a source of pride for the Democratic Party but also an inspiration for its cadres and the younger generation.

"Congratulations to Coordinating Minister AHY on receiving the highest award from NTU. Hopefully, this achievement will serve as an example for Democratic Party cadres and young people to continue contributing to society and the nation," he said.

Ratnawati emphasized that the award is proof that hard work, integrity, and commitment to serving the nation are always rewarded. She hopes more young leaders will follow in AHY's footsteps and make a real impact through dedication and work.

By winning this international award, AHY reaffirms his position as a national figure who not only performs his duties but also inspires both domestically and globally. **(Bas)**
