Hoo Fan Chon, Citra Sasmita, Vuth Lyno: New Works

New Works presents artworks by Hoo Fan Chon (Malaysia), Citra Sasmita (Indonesia) and Vuth Lyno (Cambodia) as part of the first cycle of SEA AiR – Studio Residencies for Southeast Asian Artists in the European Union, a pioneering programme supported by the European Union that fosters artistic development and cultural encounters between Southeast Asia and Europe. Ranging from installation and video to sculpture and painting, these artworks convey their respective engagement with the sociocultural implication of food, empowerment of women, and resilience of marginalised communities.
