Mastercard, NTU launch cybersecurity program for professionals

 Related: [How this 50-year-old cashless payments pioneer is planning a comeback](#)

Mastercard and Singapore’s Nanyang Technological University (NTU) have launched a program called NTU-Mastercard FlexiMasters in Cybersecurity & Digital Trust as part of efforts to improve resilience against cybercrime in Asia Pacific.

Aimed at mid-career professionals, the program lets them enroll as part-time students and customize their coursework to fit around their work and family commitments.
