The advertisement features a scenic view of a tropical island with a sandy beach, lush greenery, and a swimming pool. The ClubMed logo is prominently displayed at the top left, and the text 'Bintan Island, Indonesia' is centered in a large, bold font. A yellow button with the text 'Up to 30% off' is positioned at the bottom center, and a small 'T&C apply' note is located just below it. A close icon is visible in the top right corner of the ad area.

NTU is the only Singapore university in the rankings which lists the world's best universities aged 50 years old and younger.

The University's strong performance was driven by its strengths in teaching and research environment, which take into account NTU's learning environment and its research volume and institutional reputation. NTU also excelled in its international outlook, industry income and patents, and quality of research, an indicator looking at citation impact, research strength and research influence.

ClubMed

**NTU President Professor Ho Teck Hua** said: “As a young institution, we have been able to move quickly and make bold decisions to push the boundaries of science and education. NTU’s retention of the top spot in this year’s Times Higher Education Young University Rankings reflects the talent and success of our faculty and staff, and our commitment to teaching and research excellence.”

**Mr Phil Baty**, Times Higher Education’s chief global affairs officer, said: “NTU’s achievement of being crowned the number one university in the world in Times Higher Education’s Young University Rankings 2024 is absolutely fantastic. It’s all the more special as it has retained this position for the second consecutive year, and it has done this with even more competition, as more universities – 68 more than last year, representing an 11 per cent increase – participated. This continued success bodes very well for NTU and the future of its

A trailblazing science and technological university, NTU is committed to pioneering initiatives aimed at driving global and societal impact through education and research. NTU's vibrant campus provides fertile ground for fostering research and development in traditional and emerging topics.

Recognising that AI is fast becoming a general-purpose technology that will reshape the world, the University launched new AI-centric offerings and research initiatives earlier this year. These efforts are spearheaded by the new **College of Computing and Data Science**, which will train students to be experts in AI and accelerate interdisciplinary collaboration between computing and other disciplines in NTU.

NTU's latest academic offerings straddle multiple disciplines in traditional and emerging fields, which are designed to prepare future-ready graduates with interdisciplinary knowledge who can thrive in a competitive global economy.

As a result of the University's dedication to innovative teaching, scientific breakthroughs and research translations, NTU placed 32nd globally in the latest Times Higher Education World University Rankings released in September 2023. NTU was also ranked 4th in the recent **Times Higher Education Asia University Rankings**, where it was the youngest university in the top 10.

This year's Times Higher Education Young University Rankings ranked a total of 673 universities from 79 countries and regions. It uses Education's World University Rankings, which are based on teaching, research, knowledge transfer and international outlook. The rankings are calibrated to reflect the profile of missions of young universities.

Under the NTU Smart Campus vision, the University harnesses the power of digital technology and tech-enabled solutions to support better learning and living experiences, the discovery of new knowledge, and the sustainability of resources.

Ranked amongst the world’s top universities, the University’s main campus is also frequently listed among the world’s most beautiful. Known for its sustainability, NTU has achieved 100% Green Mark Platinum certification for all its eligible building projects. Apart from its main campus, NTU also has a medical campus in Novena, Singapore’s healthcare district.
