Dear Industry Partners,

I am delighted to have the honour of leading NTU Singapore, a world-class university with a rich heritage and well-equipped, beautiful and cosmopolitan campuses. Our highly talented faculty, students, staff and alumni have emerged among the best researchers, educators and practitioners in the world in many areas of technology, natural and social sciences, business, medicine, education, policy, arts and humanities. Their globally-recognised work is at the cutting edge of industrial and societal transformations that are rapidly shaping the course of human condition in this century.

NTU is ideally situated in Singapore, a vibrant city-state and global hub for finance, commerce, education, research, innovation and culture that stands at the crossroads of Asia. In a relatively short period, NTU has emerged as one of the major research universities in the world that attracts global talent, research investment, industry support and recognition for its discoveries, creativity and innovation. NTU Singapore has also established itself as one of the leading “Smart Campuses” in the world and as a model for environmentally-sustainable campus design. On our campuses, the latest technologies and innovation are explored in carefully designed testbeds for potential applications in the city, region and the world. More than 220,000 alumni of the university are now living in about 130 countries around the world, making impactful contributions to the global society.

I would like to invite you, our industry partners, to explore greater collaborations with us. Our graduates are highly sought after by industry because of their intellectual strength, academic preparation, entrepreneurial spirit, commitment to society and passion to make a difference in the world.

We look forward to working with you to develop greater opportunities for both the NTU community and industry.

NTU AT A GLANCE

Nanyang Technological University (NTU) is a research-intensive public university with 33,000 undergraduate and postgraduate students across the colleges of Engineering; Business; Science; and Humanities, Arts and Social Sciences; as well as the College of Professional and Continuing Education (PaCE College), Interdisciplinary Graduate School (IGS) and Lee Kong Chian School of Medicine (LKCMedicine).

- 11th in the world and 1st in Asia*
- Most research citations per paper among Singapore universities**
- Fastest rising young university in the world, since 2010**
- World-Class Autonomous Institutes
  - National Institute of Education (NIE)
  - S Rajaratnam School of International Studies
  - Earth Observatory of Singapore
  - Singapore Centre for Environmental Life Science Engineering
- Leading Research Centres
  - Nanyang Environment & Water Research (NEWRI)
  - Energy Research Institute @ NTU (ERI@N)
  - Wealth Management Institute

* Quacquarelli Symonds (QS) World University Rankings 2017
** Times Higher Education (THE) World University Rankings 2017/18
WORLD-CLASS TALENT

Talent Recruitment@NTU 2018/2019 is a guide for your recruitment of NTU’s graduating cohort, presented by NTU’s Career and Attachment Office (CAO).

Refer to this schedule of career events to find your ideal recruitment opportunity, be it for internships before graduation or for full-time employment after. These events are designed to connect you — the employer — to students from various disciplines, so that you can engage with the right talent for the right fit.
Public Service ENGINEERING ICT TALENT RECRUITMENT @ NTU 18/19

Recruitment Talks
20 Aug – 31 Oct 2018
21 Jan – 29 Mar 2019
Conduct Recruitment Talks on campus to introduce your organisation and available career opportunities to students. Talks are usually scheduled from Monday to Friday in the afternoons or evenings. Bookings commence on 15 July and 15 December 2018 for the above-mentioned respective periods.

Internship Fair
5 Sep 2018
Showcase your internship opportunities for students seeking internship during December to January, January to June and May to July. The Internship Fair is excellent for employers looking to raise their profile among students of various disciplines.

NTUtopia Recruitment Event
11 Sep, 13 Sep, 18 Sep, 20 Sep 2018
Find your best candidates by interacting with NTU’s top talents across disciplines at these invite-only networking events. You’ll meet graduating students with strong achievements in academic and/or extracurricular activities. You can also pre-select specific candidates to meet and share insights, experiences and career opportunities in your organisation. Interested employers may contact respective Career Consultants for details.

Career Fair
12 Feb, 15 Feb, 19 Feb 2019
Make a lasting impression on our students at Career Fair. A perennial favourite among employers and students, this large-scale event is one of the highlights of the recruitment campaign. This is a great opportunity to build your corporate brand and visibility with striking booth displays and enticing career offerings, as well as foster closer communication with your target student groups.

GradRecruit
Postgraduate
17 May 2019
Undergraduate
21 & 22 May 2019
Reach out to all graduating students after their final examinations with GradRecruit. This fair-cum-interview event serves as an ideal platform for employers who have immediate full-time opportunities. You will be able to identify suitable candidates, interview them and even make offers on the same day.

NOTE: The schedule of the career events is subject to change. Please contact the respective contact points on pages 18 and 19 for details.
ENHANCED EDUCATION AND BRANDING OPPORTUNITIES

Create greater brand awareness and establish long-term relationships with NTU’s student talents through various student-focused educational activities and services.

EMPLOYER CO-FACILITATED CAREER AND EMPLOYABILITY SKILLS WORKSHOPS

Employers who are keen to increase direct impact on NTU students and play a part in developing young talents can partner CAO’s Training Team to conduct or co-facilitate career and employability skills workshops. Topics may include resume writing, interview skills, business communication, presentation skills, project management and data analytics.

From three-hour to full-day programmes, these industry-practice workshops will provide you with opportunities to connect on a personal level with relevant students. More importantly, students will learn and benefit from industry practitioners, thereby giving them a head start in the real working world.

Employer Co-Facilitated Workshops is a new initiative and will be offered in the periods of August-October and January-March every year. Contact Ms Doreen Ang at doreen.ang@ntu.edu.sg to begin grooming future talents together today.

INDUSTRY AND EXPERIENTIAL CAREER EDUCATION PROGRAMME

Companies that wish to provide insights to educate students about their industry, showcase their technologies and capabilities to help students explore their career options can collaborate with CAO through various experiential career education programmes. These include Company Visits, Alumni Networking Engagements and Mentorship Programmes. Students are encouraged to participate in these programmes starting from their first year in NTU.

NTU PEAK

NTU Peak is a one-month intensive leadership development programme that CAO co-develops with industries to groom high calibre NTU students into industry-relevant future leaders for the workplace and community.

In this accelerated leadership programme, you will have the opportunity to brand and mentor highly motivated students with leadership potential and critical thinking skills. You will also stand to gain fresh perspectives and ideas on your organisation’s business challenges in areas such as Marketing, Business Development, Supply Chain and Human Capital Strategies. Only specially selected high potential Year 2 and 3 students from different disciplines are accepted into this programme, enabling you a first mover advantage to talent-scout for your graduate recruitment.

NTU PEAK is only offered in February and September every year.

Contact Ms Rachel Lim at rachellim@ntu.edu.sg in this shared vision for leadership development.

COMPANY VISITS

Company visits enable employers to display their domain expertise and offer students a deeper insight into their company or industry. It provides an excellent opportunity for students to engage the Line Managers and Alumni to understand more about the work culture, challenges, career journey, learning points and insights about the industry trends and market outlook.

MENTORSHIP PROGRAMMES

“It takes a village to raise a child.” If you have the passion to guide, develop and mentor NTU students on their skills, and help them with their career exploration and transition for the future of work, we have an online mentorship platform (http://mentor.ntuconnectngminds.com/) that connects you with the students. This is also an excellent platform for you to discover talents within NTU.

ALUMNI NETWORKING ENGAGEMENTS

Alumni are powerful envoy's to increase brand awareness about companies as students often develop a deeper understanding of companies through interactions with them.

Employers are encouraged to have staff who are NTU alumni to come speak with our students. Students always welcome these opportunities to network and hear directly from their seniors about work experiences, companies, industry outlook and possible career opportunities.

We welcome all NTU alumni to share their insights and tips at these casual networking sessions.

ADVERTISEMENTS AND SPONSORSHIPS

CAREERtracks

Increase your company’s brand and presence on campus with company sponsorships and advertisements.

Every year, CAO produces an in-house career publication, CAREERtracks, which is distributed to over 20,000 NTU students and NTU Colleges and Schools.

Brand your company as an Employer of Choice in this magazine and book an advertisement page. Contact Ms Leow Wei Hui at whleow@ntu.edu.sg to book your advertisement space.

COLLATERALS SPONSORSHIP

In our outreach programmes at various campus events and roadshows throughout the year, CAO distributes gift items and goodie bags to Student Clubs, NTU Halls and the general NTU student community. This has considerable mileage to companies that sponsor these student collaterals. Contact Ms Jenny Pong at hypong@ntu.edu.sg to explore sponsorship opportunities on student collaterals.

OTHER SPONSORSHIP OPPORTUNITIES

• Sponsor students on student activities
• Sponsor students for overseas attachments
CAREER SERVICES

CAREERAXIS

Mobile-friendly portal that offers comprehensive career services and resources for NTU students.

With CareerAxiss, you can easily post internship and job opportunities, and sign up for career events and services. The portal also provides an intelligent feature that makes job recommendations to NTU students based on their job search behaviour on the portal.

Register an employer account via:
https://careeraxis.ntu.edu.sg/Employers/

WEEKLY EMAIL

Email blast that is sent out by CAO to penultimate and final year students every Thursday. Employers who wish to publicise career-related events, competitions, graduate or internship opportunities can do so through this weekly email.

Between July and December, CAO also sends out another weekly email on Wednesday to the recent graduated class, which features immediate available job opportunities.

The weekly email service is free of charge for employers. To be included in the Wednesday or Thursday email, simply forward your messages to JOB-BLAST@ntu.edu.sg a day before.

MAILING SERVICE

This chargeable service can be used for the purposes of further corporate branding and advertising by sending customised career related messages via email or postal mails to your targeted student audience. Refer to page 19 for more information.

STRATEGISE WITH OUR CAREER CONSULTANTS

Our Career Consultants are familiar with diverse industry domains. Contact the respective Consultant in charge of your industry to discuss about how you can effectively strategise campus recruitment and student outreach.
INTERNSHIP PROGRAMMES

NTU places about 5,000 students each year in credit-bearing internship programmes with industry partners, both locally and overseas. An internship is more than an opportunity to work. It is a learning and development setting that enables students to apply the knowledge and skills learned in NTU within the practical world of work.

Internships are excellent means for organisations to:
• Access NTU’s talent pool early to evaluate and recruit potential employees
• Supplement existing staff with additional manpower
• Inject fresh ideas and perspectives from enthusiastic students
• Create positive branding presence in the NTU student community

Internship job scopes submitted by or organisations will be evaluated for their relevance and quality by the respective NTU schools. Once approved, the opportunities will be put up for application by students before organisations make their selection, offer and confirmation.

Please refer to the table on page 14 for internship periods and the respective internship Programme Managers. For general internship enquiries, please contact us via email at cao_internship@ntu.edu.sg.

HO QIAO LING
Biological Sciences
My 22-week internship experience with the Marie Curie Palliative Care Institute of Liverpool has enriched me in every possible way. I got to work with passionate, like-minded people, spoke to patients at their end of life, communicated with families on their experiences and worked with dedicated healthcare professionals and research teams. It was an opportunity to cultivate active and independent learning, and it exposed me to the endless possibilities out there.

It was an eye-opener. It not only developed my academic knowledge and skills, but also my interpersonal competencies. It was especially difficult working alone in a new environment, new culture and new country, but I realised that “life begins at the end of my comfort zone”.

MICHAEL UTAMA
Business
Through my internship, I realised that hard skills such as financial modelling are easy to acquire. Soft skills were not as straightforward to develop and demanded keen observations and practice. In order to learn or improve a soft skill, I needed to step out of my comfort zone. And in my experience in Aon, I had the opportunities to hone my communication skills, such as talking to and getting to know people.

ROXANNE KOH SEE HUI
Psychology
I interned with Community Health Assessment Team, under Institute of Mental Health’s Early Psychosis Intervention Programme. The main challenge that I faced was moving out of my comfort zone, like seeking help from my supervisor and colleagues while they were engaged with their work.

I learned many things, such as engaging with young people and concerned parents, facilitation, training, public speaking and outreach. Overall, the 73-day internship changed my life forever. The experience affirmed my passion for working in a clinical profession in the psychiatric setting! I fell in love with the people and the work so much that I did not want the internship to end!

CORNELIUS WANG HONG YUEN
Maritime Studies
An organisation is only as good as its people. That being said, those working at Maersk Line (ML) take a genuine interest in the learning of their interns. We were given ample opportunities to do real work that had a direct impact on ML’s operations. I also learned that it is vital to maintain a good relationship with both my manager and my colleagues. My manager assigned me with tasks and projects, and my colleagues coached and guided me from start to the finish.
INTERNATIONAL PROGRAMME CALENDAR

The credit-bearing internship periods for each degree programme are listed below.

To offer internship opportunities, please apply online via the Attachment and Internship System (AIMS):
http://www3.ntu.edu.sg/opawww/aims

OVERSEAS INTERNSHIPS

Today’s globalised business climate requires talent who are equipped with a global mindset and cultural intelligence. To align with this, we aim to develop students’ global readiness through academic courses, training workshops as well as offering overseas internship opportunities in many countries across the world.

Apart from contributing to the companies with their meaningful work effort during internship, our overseas interns can also be trained and evaluated through real work involvement and challenges. Upon graduation, they can be considered for full-time hire in their Singapore or international offices.

Hence, it is through such arrangement that our industry partners can collaborate with NTU to develop their global talent pipelines.

Team up with us to develop your future global talents!

http://www3.ntu.edu.sg/opawww/aims
Premier Scholars Programmes (PSP) are specially developed to provide exceptional students with a multidisciplinary and broad-based curriculum, under the close guidance of various academic and industry leaders. Students in one of these Scholars Programmes can also take up a scholarship with your organisation.

CN YANG SCHOLARS PROGRAMME (CNYSP)
Named after Professor CN Yang (Nobel Laureate in Physics, 1957), CNYSP is only offered to 40 exceptional students in Science and Engineering. At the end of the undergraduate study, CNYSP graduates are given an option to pursue postgraduate study (PhD) with a scholarship in NTU or Joint PhD overseas.

RENAISSANCE ENGINEERING PROGRAMME (REP)
Offered to Engineering students, REP is an integrated residential programme that bridges Engineering, Business Arts and the Liberal Arts. As NTU’s flagship engineering programme, REP is a dual-degree programme that awards a Bachelor of Engineering Science with a Master of Science in Technology Management in 4.5 years. REP students also participate in an overseas exchange programme for one year, with internship opportunities, in either United States, United Kingdom or Europe.

UNIVERSITY SCHOLARS PROGRAMME (NTU-USP)
Available to students of all disciplines, students develop critical knowledge and skills across diverse subjects such as quantitative reasoning to religions of the world and astronomy. This results in highly self-aware employees who can contribute significantly to your organisation.

Additional Programmes/Majors*
- Art History
- Chinese Medicine
- Biomedical Structural Biology
- Food Science and Technology
- Media Analytics
- Medical Biology
- Medicinal Chemistry and Pharmacology
- Pharmaceutical Engineering
- Society & Urban Systems
