
Shanghai Jinde Asset Management Ltd.

ABOUT US:

Shanghai Jinde Asset Management Ltd. is an innovative asset management company established in 2011. We specialize in applying statistical principles to study financial markets and bringing in profits for investors through advanced scientific and technological methods. We are committed to the research and management of comprehensive investment strategies and have been among the top hedge funds in Chinese market.

The current AUM of Jinde exceeds 40 billion CNY. With founding team from CICC and employees graduated from prestigious universities domestic and overseas, Jinde consist of elite cooperative teams, including PMs with rich experience and solid records from well-known oversea hedge funds, and technical experts in trading systems and financial data. Our positive working culture and incentive mechanism have attracted high-end seasoned professionals from renowned domestic and oversea financial institutions and fresh graduates from top universities. Up to 1/3 of the investment researchers had ranked top 20 in provincial College Entrance Examination or have been medal winners of CMO, CPhO, NOI. Nearly half our investment team are PHD degree holders . Since its establishment, Jinde has enjoyed stable personnel growth and low turnover rate.
