Work-Integrated Education (WIE) in NTU is aimed at enhancing student employability and career readiness. It does so in close partnership with industry leaders by incorporating and availing real-world work experiences into students’ education journey. These experiences serve to deepen our students’ practical exposure and skills while cultivating a good understanding of professional practices.

WIE is conducted through three programme categories:

- Single work-term Internships,
- Multiple work-term Work-Study Degree/ Cooperative Education Programme, and
- Short-term ‘live’ Industry Projects.

Benefits for Students
- Deepen relevant technical industry skill-sets and develop soft skills.
- Cultivate understanding of industry practices.

Benefits for Company
- Access to NTU’s large talent pool.
- Groom potential talents over time.
- Development of talent pipeline.

For enquiries, please email wsdp@ntu.edu.sg
NTU EDGE, acronym for Equipping and Development via Guided Exposures, is an NTU Work-Integrated Education programme purposed to equip and develop NTU students with cutting-edge, industry-relevant competencies through industry project work.

- Authentic 'live' projects from industry.
- 6 to 12 weeks duration
- Open to all disciplines and all years
- Team / Individual
- Remote work
- Flexible year-round enrolment
- Non-credit bearing; no formal assessments

Examples of Industry Participants:

We collaborated with NTU on the EDGE program because of its unique curriculum and we were eager to provide a glimpse of what it’s like to work at Jabil. The students were extremely professional, and we were impressed by some of their recommendations.

Alvin Ng
General Manager of Jabil Singapore

“This has been an enriching experience for me and I would like to thank Jabil for this opportunity to get up close and personal with one of the largest contract manufacturers in the world.”

Jing Yuan Ng
NTU EDGE Jabil Project participant

The Career and Attachment Office (CAO) offers overseas opportunities for students to widen their perspectives of the working world. CAO aims to enhance students’ employability and career mobility worldwide upon graduation and prepares them to compete locally and internationally. There are various types of arrangement, each catering for the wide ranging interests of students.

OVERSEAS INTERNSHIP

Internship opportunities with corporations worldwide ranging from global MNCs, SMEs, NGOs, Singapore enterprises to government agencies, that offer positions relevant to our students’ specializations.

CAO WORK AND STUDY CHINA

Launched in Year 2005, this popular programme allows students to fulfil their internship requirement and gain invaluable knowledge of the culture, politics and social-economic aspects of China.

RESEARCH INTERNSHIP

Caters to students who aspire to gain exposure in research projects offered by our partnering universities worldwide.

GLOBAL INSIGHTS AND EXPOSURE

Short term programmes such as organised trips, competitions and other activities, that offer a glimpse of the foreign work environment, business culture and job opportunities.
The CAO Work and Study China programme offers a holistic and immersive experience in China through a full semester of internship and study. Students have the opportunity to work in global renown MNCs, established Chinese companies or our very own Singapore enterprises. Apart from internship, students also attend classes at top Chinese universities, such as Peking University, Shanghai Jiaotong University and Soochow University. Students study topics on culture, economics, politics, history and language of China.

Financial support available to eligible participants to defray their overseas expenses.
