

Weekly e-Blast

Career & Attachment Office

20 May 2021

“Your weekly dose of new graduate and internship opportunities from all hiring sectors.”

Dear Students

I hope you are having a fruitful GradRecruit event this week networking with the industry and uncovering more insights about the sectors, companies and job functions that you are interested in.

For ICT related roles, I would like to share some advice for your job application:

- 1) Highlight the list of technology skillsets clearly in your resume. Better still, create specific relevant categories of skillsets to attract the intended reader (eg Data Visualization, Programming, Simulation etc)
- 2) Share quality short stories bullet points of how you applied these relevant skillsets to allow the hirers to be able to differentiate your profile from other candidates.
- 3) Indicate other Online Tech courses or side projects that you are undertaking or have taken to show your inherent interest in Tech related topics
