

Weekly e-Blast

Career & Attachment Office

6 May 2021

“Your weekly dose of new graduate and internship opportunities from all hiring sectors.”

Dear Students,

Exam fever is finally over!!! Give yourself a pat on the shoulder for finally completing all your papers! Whether you are a final year student who has secured your 1st job; or you are a student who will be embarking on your summer internship; or you are still in the midst of job search, you need to prepare well for this next stage of your life. Here are 3 useful tips to guide you towards a smooth transition.

1) Know yourself:

Prior to making important career choices and preparing for interviews, you need to know yourself well. In a challenging and uncertain employment market, it is common for employers' hiring needs to evolve. Thus, it is important that you take time to assess what motivate you, what are your values, interests, personality, what skills you possess and what drives you. Knowing yourself makes it easier for you to apply for the right jobs that will align with your career goals and aspirations.

2) Pace yourself:

Embarking on your 1st job can be a daunting process. You may be unsure if you have chosen the right job, or whether you could have accepted the other job. What if you cannot perform well on this job? Will your colleagues be forthcoming in helping you adapt to this new role? The list of concerns goes on and on. This is perfectly normal as you are transiting to a new stage of your life. Be prepared for many uncertainties that could come your way. Stay focused, be patient and importantly, don't be too hard on yourself.

3) Keep an open mind, seize the opportunity:

This pandemic has changed the way that employers screen candidates. Thus, you need to be familiar with phone, video interviews and be comfortable with web conferencing tools (such as Zoom, Microsoft Teams). Don't feel shy about speaking to a camera on your computer. Enhance your online social media presence via LinkedIn, get connected with potential employers to get one step closer to your ideal job. Acquire new skills while job hunting so that you have more job options to choose

from. Be an opportunist to look out for emerging industries (keep a lookout for our weekly eblast). Last but not least, keep the job search momentum going so as not to miss out on precious opportunity that could land at your door-step any time!

Highlights:

Senoko Energy

1) New energy solutions
