## Career & Attachment Office

15 July 2021

***“Your weekly dose of new graduate and internship opportunities from all hiring sectors.”***

Dear Students

The idea of achieving success is always very sweet and satisfying. Often forgotten is what goes behind attaining that – the real hard work, time, and persistent effort that one must put in to reach that state of success. Love this [Ted Talk](#) by Angela Lee Duckworth, Psychologist, and was hoping to share it with you.

Angela realized that IQ wasn't the only thing separating successful students from those who struggled. Here, she explained her theory of "grit" as a predictor of success. Hope this can help shed some light towards you achieving your own state of 'success' too!
