Weekly Career Digest

Your weekly source of graduate & internship opportunities

NTU CAREER & ATTACHMENT OFFICE

Highlights of the week:

🎓 **Graduate Opportunities**	🎙 **Internship Opportunities**	📚 **Career Activities**	💡 **Consultation Booking**

For more career opportunities from various industries, please access Career Axis.

Dear Students

The University is brimming with energy as we return to campus! It's been 3 weeks in, I hope you had a great start and amid gearing up for more exciting activities lined up this semester!

With many of you preparing for internship/job applications as well as interviews, allow me to share a few resources for those who are keen to explore and apply for IT roles. As part of the interview process for these positions, it is common to go through **Technical Assessments** and/or **Coding Tests.** With that in mind, start by equipping yourself for such technical tests!

Below are some resources that you may use for reference and practice. Hope you find them useful!

1) **HackerTrail** – Find a growing library of Coding Challenges in different test formats and varying difficulty levels. Moreover, find interview prep resources for various IT roles on this resource page as well.

2) **TestDome** – A wide collection of Programming Tests that allow you to assess and polish your skills to create solutions, implement new functionality, analyse code, or fix a bug.

In addition, don't forget to prepare for next week's virtual Job-In Fair (30 Aug – 3 Sep 2021) where you can connect with more than 200 employers for potential internship/job opportunities. Before the Fair officially begin, do you know that you can already register and login to upload your resume, professional photo and create your profile?

Some tips:
- Prepare impactful and targeted resume content based on the role that you are interested in. Remember, *one size DOES NOT fit all!*
- Shortlist the list of companies and roles you are interested in and research on them to prepare good questions to ask during the event.
- Network, network & network; Don't be a window-shopper! Do get inside the company booths to engage and chat with the company reps who have allocated their precious time to speak with all of you.

ICT Job Highlights

Graduate Jobs	Internships
1) HP – Social Media & Influencer Content Executive 2) MCI (Cyber Security Agency of Singapore) – Systems Engineer 3) Cognizant – Singapore Graduate Program 2021 (Various Job Roles)	1) Bitmain – Part-time Back End Developer 2) Circle.Life – Employer Branding Intern 3) Anacle Systems Limited – Various Internship roles (Consultant, Software Engineering, Marketing etc.)

Last but not least, stay safe and set meaningful learning outcomes & acquire industry exposures for yourself this semester!
