For more career opportunities from various industries, please access [Career Axis](#).

Dear Students

Think [shrinking smartphone shipments](#), price surges for laptops and printers, or [reduction in automobile production](#) all over the world. Have you ever considered how a tiny microchip and its supply shortage could directly impact end consumers like you and me? Just look around and you will realise that almost everything – from cars, homes, electronic devices to even cities – is enabled by some type of electronic chip. And this high semiconductor chip demand is fuelled by Industry 4.0 technology development worldwide.

Amid this increasing demand for chips, the growth trajectory of the semiconductor industry continues to bode well as we hear the recent news on [Micron's \\$150 billion global investment](#) into memory manufacturing and R&D, the upcoming [new GlobalFoundries plant in Singapore](#) that will be ready by end 2022, as well as the [ramped up efforts to develop talent pipeline in Singapore](#).

With most of the global players located here in Singapore, these companies are keen to welcome grads and interns from multiple STEM disciplines. The industry is a close-knit one and are interested in recruiting those who wish to contribute to the technology advancement well into the future.

Job Highlights: Engineering, Manufacturing and Logistics & Transportation

Graduate Jobs	Internships
<ol style="list-style-type: none">1) GlobalFoundries – Various Positions2) Micron – Various Positions3) DSO National Laboratories - Various Positions4) SMRT – Engineering & Management Associate (Graduate) Programme (EMA)5) Creative Technology Group of Companies – Various Positions	<ol style="list-style-type: none">1) Porsche<ul style="list-style-type: none">• Marketing intern• Sales Operation Intern2) TUV SUD – Digital Content Creator Intern3) Aztech Technologies – Electrical Engineering (Hardware) Intern

Here are some **Additional Resources** to facilitate your job search in the following sectors:

Additive Manufacturing : [NAMIC](#)
