Dear Students

The race is on and we are fast approaching the tail end of SEM 1, AY2021! Come capitalise on the array of career events and job highlights from Employers in the **Consumer Business & eCommerce and Media & Marketing** sectors.

Having met many students for career consultations, here are some of my common observations:

- Some students have an idea of the jobs they wish to have, but have no inclination where to find these jobs or are not proactive in their search; while
- Others feel uncertain or are unsure of the type of job roles they can consider besides those geared towards their disciplines.

While these concerns are truly legitimate, let them not be your Achilles' heel in delaying your job search or stop you from taking initiative in discovering the options available!

This October, to broaden your perspective and get you up-close with professionals in the field, CAO presents:

'What's in for You in Media & Marketing Industry' (WIFUMM), 14 Oct 2021, 6pm

Together with industry leaders from **Mediacorp, Essence, NBCUniversal, Protegie Group, and Hill+Knowlton Strategies**, [WIFUMM](#) seeks to help you:

- Gain insights from a genre of employers in Broadcast media, Digital, Brand and PR Consultancy in one sitting – hear about their expectations, culture, emerging trends/skills, career opportunities and professional development you may envisage
- Understand various types of job roles you may consider applying beyond those related to your disciplines
- Garner first-hand awareness of potential jobs extended by the panellists' companies during the session, if any for your application
- Achieve greater clarity of the participating panellists' companies with accompanying virtual Company Visits extended to you after WIFUMM

We look forward to hosting you at this event. Reserve your seat via this [link](#) now by 13 Oct!

"My job search process was initially very daunting and distressing. However, after reaching out to Melissa, she pointed me to NTU portals where I can use to reach out to prospective employers that matches my preferences, and also encouraged me to never stop trying.
