TALENT RECRUITMENT 2020/2021

EMPOWERING TALENT

Dear Industry Partners,

I am proud to lead NTU Singapore, a world-class university with a rich heritage and two beautiful and cosmopolitan campuses.

Over the last 12 months, NTU Singapore has climbed to its highest ever position in every major international league table. NTU was placed 11th in the QS World University Rankings and broke into the Top 50 for the first time in both the Times Higher Education World University Rankings and the US News & World Report Best Global Universities ranking. NTU also retained its position as the world's best young university for the 6th consecutive year in the QS Under 50 ranking.

Our highly talented faculty, students, staff and alumni are earning a reputation as being among the best researchers, educators as well as leaders in business, commerce, industry and government. Their globally recognised activities are at the cutting edge of industrial and societal transformations that are rapidly shaping the course of the human condition in this century.

NTU is situated at the crossroads of Asia in the vibrant city-state of Singapore, a global hub for finance, commerce, education, research, innovation and culture. In a relatively short period, NTU has emerged as one of the major research universities in the world that attracts global talent, research investment and industry engagement that helps translate its research discoveries into innovations for society.

NTU Singapore has also established itself as one of the leading "Smart Campuses" in the world and as a model for environmentally-sustainable campus design. On our campuses, the latest technologies are explored in carefully designed testbeds for potential applications in the city, region and the world. More than 244,000 alumni of the university are now living in about 130 countries around the world, making impactful contributions to global society.

I would like to invite you, our industry partners, to explore the work done by our faculty, students and staff. Our graduates are highly sought after by industry because of their intellectual strength, academic preparation, entrepreneurial spirit, commitment to society, and passion to make a difference in the world.

We look forward to working with you to develop greater opportunities for both the NTU community and industry.

PROFESSOR SUBRA SURESH
President and Distinguished University Professor

NTU MILESTONES AT A GLANCE

33

joint entities set up with leading multinationals on campus

1st

in QS ranking of the world's young universities for 6th consecutive year

9 in 10

graduates received a job offer within six months of graduation

S\$674m

6

new work-study degree programmes with industry partners

5

NTU subjects in the global top 10 in QS ranking - Material Science, Electrical & Electronic Engineering, Communication & Media Studies, Chemistry and Civil & Structural Engineering

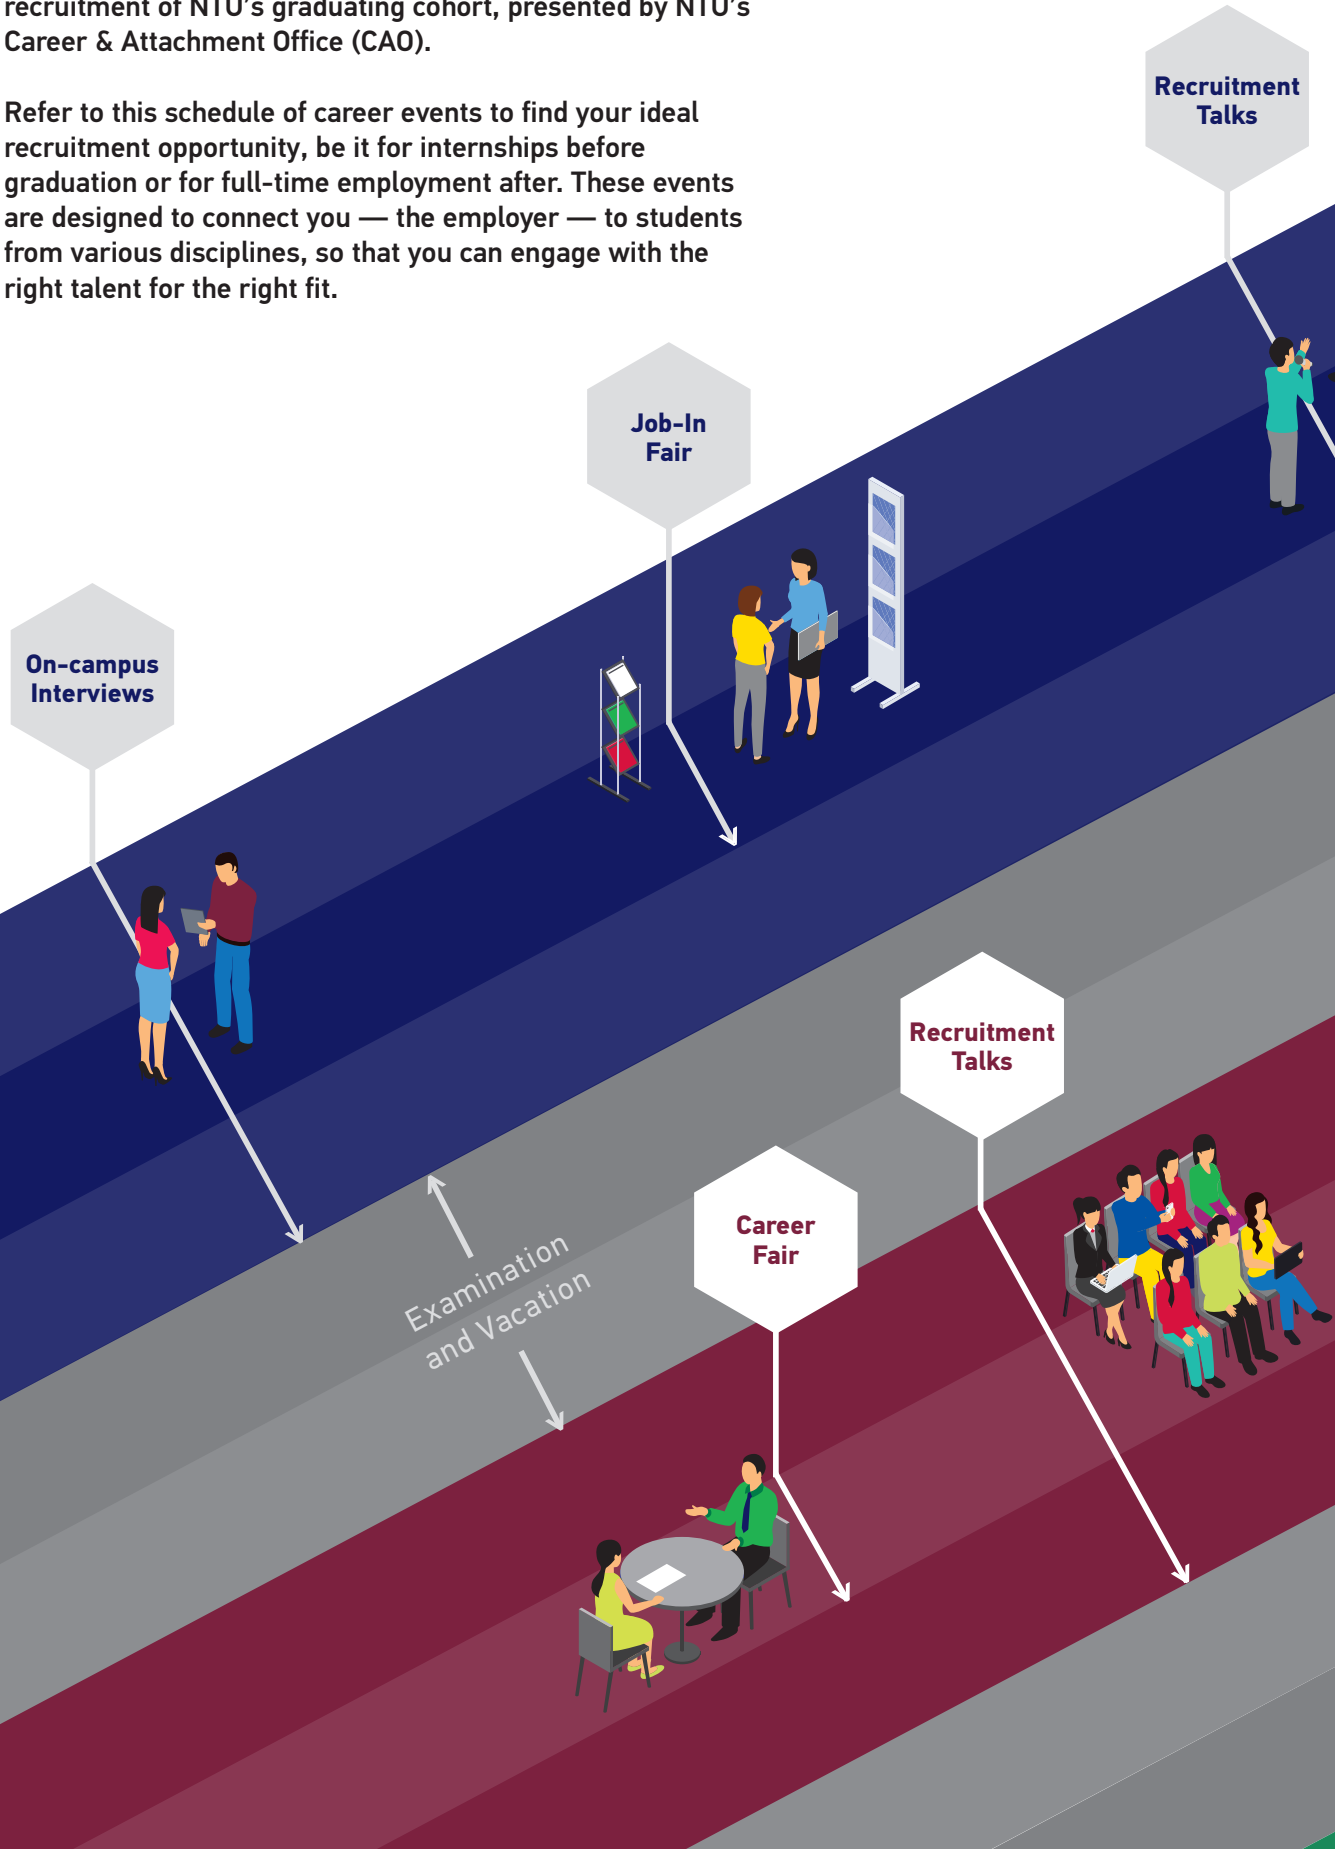

CAO'S THREE KEY PILLARS

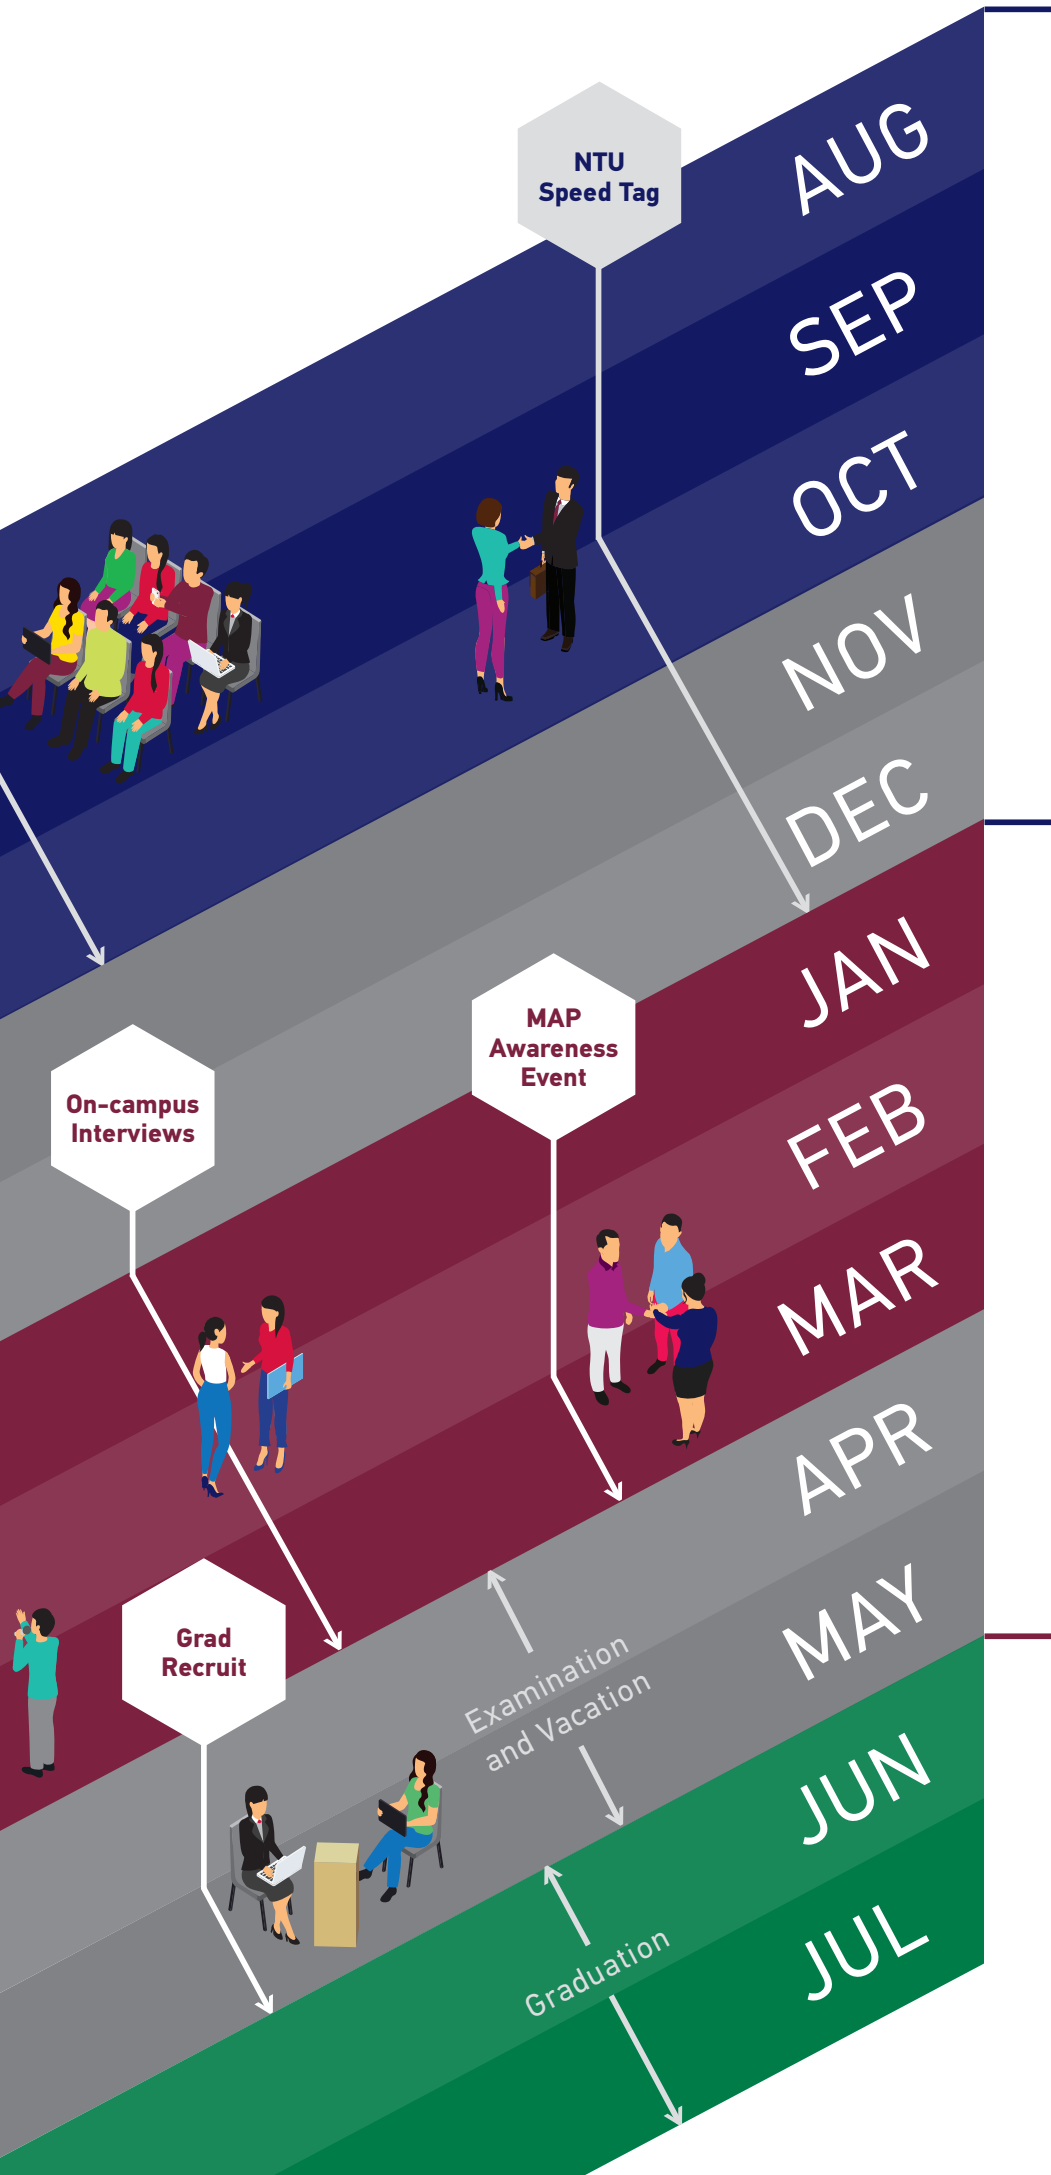

WORLD-CLASS TALENT

Talent Recruitment@NTU 2020/2021 is a guide for your recruitment of NTU's graduating cohort, presented by NTU's Career & Attachment Office (CAO).

Refer to this schedule of career events to find your ideal recruitment opportunity, be it for internships before graduation or for full-time employment after. These events are designed to connect you — the employer — to students from various disciplines, so that you can engage with the right talent for the right fit.

JOB-IN FAIR (VIRTUAL)

7 - 11 Sep 2020

It's never too early to start. Beat the mass and start your talent search as early as in Semester 1. This is a great opportunity for you to showcase your full-time and internship opportunities to our talented students. The Job-In Fair is an excellent event for employers who wish to establish a stronger presence among NTU students.

1

RECRUITMENT TALKS

17 Aug 2020 - 30 Oct 2020
18 Jan 2021 - 1 Apr 2021

Conduct Recruitment Talks on campus to introduce your organisation and available career opportunities to students. Talks are usually scheduled from Monday to Friday in the afternoons or evenings. Bookings commence on 1 June 2020 and 1 November 2020 for the above-mentioned respective periods.

6

GRADRECRUIT (VIRTUAL)

17 - 23 May 2021

Reach out to all graduating students after their final examinations with GradRecruit. This fair-cum-interview event serves as an ideal platform for employers who have immediate full-time opportunities. You will be able to identify suitable candidates, interview them and even make offers on the same day.

NTU SPEED TAG (VIRTUAL)

4th Quarter 2020

Search and recruit NTU students through this innovative approach. Job Tag is a theme-based career event specifically designed for employers who are looking for students with specific knowledge and skills. With high engagement and ROI in mind, Job Tag allows employers to interact and spot the right talents using the most appropriate approach/platform.

CAREER FAIR (VIRTUAL)

1 - 5 Feb 2021

Make a lasting impression on our students at Career Fair. A perennial favourite among employers and students, this large-scale event is one of the highlights of the recruitment campaign. This is a great opportunity to build your corporate brand and visibility with striking booth displays and enticing career offerings, as well as foster closer communication with your target student groups.

MAP AWARENESS EVENT (VIRTUAL)

30 - 31 Mar 2021

Showcase your Management Associate Programme/Talent Development Programme to create awareness among the year 3 and 4 students and scout talents.

ENHANCED EDUCATION AND BRANDING OPPORTUNITIES

Create greater brand awareness and establish long-term relationships with NTU student talents through various student-focused career educational activities and services.

NTU PEAK

NTU PEAK is an intensive student development programme that CAO co-developed with industries to groom high calibre NTU students into industry-relevant future leaders who wish to impact the workplace and community.

In this one-month accelerated programme, you will have the opportunity to mentor highly motivated students who will offer fresh perspectives on your organisation's business challenges in areas such as Marketing, Business Development, Supply Chain, Tech Solutions and Human Capital Strategies.

As an industry partner, you will mentor aspiring Year 2 to 4 students from different disciplines, giving you the first mover advantage to brand your organisation and talent-scout for your graduate recruitment.

NTU PEAK is offered in February and September every year.

📞 Contact Mrs Angeline Sim at angelinesim@ntu.edu.sg if your organisation wishes to be involved in this shared vision of student leadership development.

THE INSIDER SERIES WORKSHOPS

Employers who are keen to increase direct impact on NTU students and play a part in developing young talents can partner CAO's Training Team to conduct or co-facilitate career and employability skills workshops. Topics may include resume writing, interview skills, business communication, presentation skills, project management and data analytics.

These workshops will provide you with opportunities to connect on a personal level with relevant students through hands-on case studies and discussions. More importantly, students will learn and benefit from industry practitioners' sharing, thereby giving them a head start in the real working world.

The Insider Series Workshops are offered in the periods of August-October and January-March every year.

📞 Contact Ms Doreen Ang at doreen.ang@ntu.edu.sg to impact and groom future talents together.

INDUSTRY & CAREER EXPERIENTIAL EDUCATION PROGRAMME

Companies that wish to provide insights to educate students about their industry, showcase their technologies and capabilities to help students explore their career options can collaborate with CAO through various career experiential education programmes. These include Company Visits, Alumni Networking Engagements and Mentorship Programmes. Students are encouraged to participate in these programmes starting from their first year in NTU.

NTU XPERIENCE JOB SHADOWING

NTU Xperience is a short duration job shadowing programme that CAO co-develops with industries to allow students to gain better understanding about a specific role/function. Through a well thought-out framework and methodology, companies can provide that "learning through experiencing" concept to inspire students to pursue their careers while at the same time engaging them in a more meaningful way.

COMPANY VISITS

Visits to the company go beyond simply just showing the students around. It's about engaging the students and inspiring them. Companies can work with CAO to co-develop a meaningful agenda that provides students with the insights beyond what the classroom can offer. Through such exceptional experience, companies will be able to create better branding among NTU students.

➔ Contact Ms Joreen Low at lowkh@ntu.edu.sg to provide valuable exposure beyond classroom.

MENTORSHIP COMMUNITY "NTU CONNECTING MINDS"

"It takes a village to raise a child." If you have the passion to guide, develop and mentor NTU students on their skills, and help them with their career exploration and transition to the workforce, we have an online mentorship platform that connects you with the students. You can participate in community programmes, such as workshops, to share your skills with the students.

➔ Sign up to be a mentor at <http://mentor.ntuconnectingminds.com>

ALUMNI NETWORKING ENGAGEMENTS

Alumni are powerful envoys to increase brand awareness about companies as students often develop a deeper understanding of companies through interactions with them.

Employers are encouraged to have staff who are NTU alumni to come speak with our students. Students always welcome these opportunities to network and hear directly from their seniors about work experiences, companies, industry outlook and possible career opportunities.

We welcome all NTU alumni to share their insights and tips at these casual networking sessions.

➔ Contact Mr Ryan Hong at ryanhong@ntu.edu.sg for Mentorship Programme and Alumni Engagement.

ADVERTISEMENTS IN CAREERTRACKS

Increase your company's mindshare on campus with print and online advertisements in our exclusive career guide for NTU students.

Every year, CAO produces an in-house career publication, CAREERtracks, which is distributed to over 33,000 NTU students across all Colleges and Schools.

Brand your company as an Employer of Choice by booking your advertisement space in the CAREERtracks magazine and microsite.

➔ Contact Ms Candice Leow at candice.leow@ntu.edu.sg for advertising enquiries.

SPONSORSHIP

COLLATERALS SPONSORSHIP

In our outreach programmes at various campus events and roadshows throughout the year, CAO distributes gift items and goodie bags to Student Clubs, NTU Halls and the general NTU student community. This has a considerable mileage for companies to build brand awareness or enhance brand image.

OTHER SPONSORSHIP OPPORTUNITIES

- Sponsor students on student activities
- Sponsor students for overseas attachments

➔ Contact Ms Yvette Ku at yiting.ku@ntu.edu.sg for sponsorship opportunities.

STRATEGISE WITH OUR CAREER CONSULTANTS

Our Career Consultants are familiar with diverse industry domains. Contact the respective Consultant in charge of your industry to discuss about how you can effectively strategise campus recruitment and student outreach.

CAREER SERVICES

CAREERAXIS

Mobile-friendly portal that offers comprehensive career services and resources for NTU students.

With CareerAxis, you can easily post internship and job opportunities, and sign up for career events and services. The portal also provides an intelligent feature that makes job recommendations to NTU students based on their job search behaviour on the portal.

➔ Register an employer account here: <https://careeraxis.ntu.edu.sg/Employers/>

WEEKLY EMAIL

Email blast that is sent out by CAO to penultimate and final year students every Thursday. Employers who wish to publicise career-related events, competitions, graduate or internship opportunities can do so through this weekly email.

Between July and December, CAO also sends out another weekly email on Wednesday to the recent graduated class, which features immediate available job opportunities.

The weekly email service is free of charge for employers.

➔ Simply forward your messages to careeraxis@ntu.edu.sg to be included in the emails.

RECRUITMENT TALKS

Companies can register to conduct recruitment talks on campus from August to October and January to March. The talks are usually conducted in the afternoon or evenings after most classes ended. Most talks are open to final and penultimate year students, with some talks open to earlier years.

➔ Contact the career consultant in charge of your industry for more information.

WORK-INTEGRATED EDUCATION

INTERNSHIP PROGRAMMES

A flagship programme of NTU. An internship is more than an opportunity to work. It is a learning and development setting that enables students to apply the knowledge and skills learned in NTU within the practical world of work.

NTU EDGE

A short-term 'live' industry project programme to equip and develop NTU students with cutting-edge, industry-relevant competencies while they are still in school. Its practical and flexible nature caters to company project needs while offering real-world exposure to students.

WORK-STUDY DEGREE PROGRAMMES

NTU's multiple work-term internship programme. It allows students to deepen their exposure and skills in the industry. It enables companies to gain early access to NTU talents and to groom and nurture them over time for future employment.

INTERNSHIP PROGRAMMES

NTU places about 5,000 students each year in credit-bearing internship programmes with industry partners, both locally and overseas. Internships are excellent means for organisations to:

Access NTU's talent pool early to evaluate and recruit potential employees

Supplement existing staff with additional manpower

Inject fresh ideas and perspectives from enthusiastic students

Create positive branding presence in the NTU student community

Internship job scopes submitted by organisations will be evaluated for their relevance and quality by the respective Schools. Once approved, the opportunities will be put up for application by students before organisations make their selection, offer and confirmation.

INTERNSHIP PROGRAMMES CALENDAR

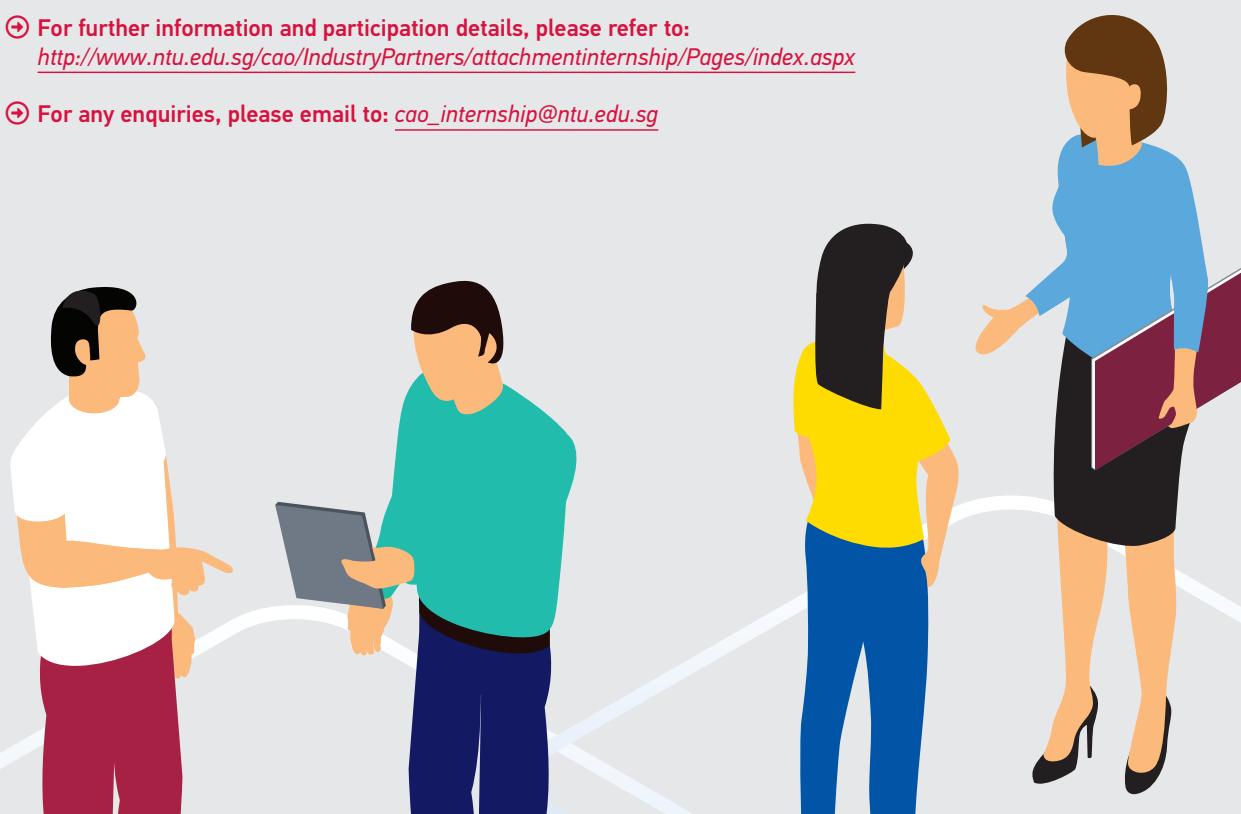

The credit-bearing internship periods for each degree programme are listed below.

PROGRAMME	PERIOD	DURATION
Engineering 3 rd / 4 th Year * for students enrolled in Double Major, Double Degree and Integrated Programmes only	03 Aug 2020 – 19 Dec 2020 11 Jan 2021 – 29 May 2021 17 May 2021 – 24 Jul 2021	20 weeks 20 weeks 10 weeks*
^ Physical & Mathematical Sciences 3 rd / 4 th Year <i>CBC – Chemistry & Biological Chemistry</i> <i>PAP – Physics & Applied Physics</i> <i>MAS – Mathematical Sciences</i>	13 Jul 2020 – 12 Dec 2020 (CBC, PAP & MAS) 11 Jan 2021 – 12 Jun 2021 (CBC, PAP & MAS) 10 May 2021 – 17 Jul 2021 (PAP) 10 May 2021 – 31 Jul 2021 (MAS)	22 weeks 22 weeks 10 weeks 12 weeks

OVERSEAS INTERNSHIP

Today's globalised business climate requires talent who are equipped with a global mindset and cultural intelligence. To align with this, we aim to develop students' global readiness through academic courses, training workshops as well as offering overseas internship opportunities in many countries across the world.

Apart from contributing to the companies with their meaningful work effort during internship, our overseas interns can also be trained and evaluated through real work involvement and challenges. Upon graduation, they can be considered for full-time hire in their Singapore or international offices. Hence, it is through such arrangement that our industry partners can collaborate with NTU to develop their global talent pipelines.

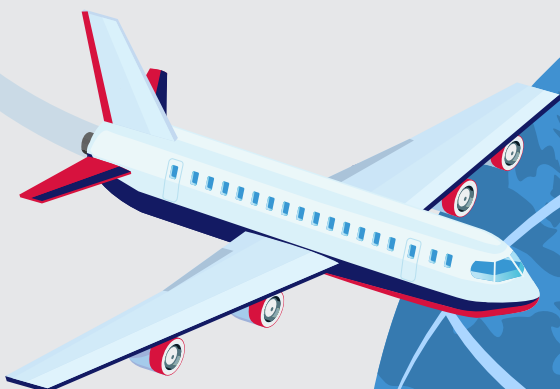

Team up with us to develop your future global talents!

PROGRAMME TYPE	REGIONS	DESCRIPTION	PERIOD / DURATION
CAO Overseas Internship	Worldwide	Companies worldwide can reach out to our students from various specialisation on their internship opportunities.	Jan - Jun & Aug - Dec (20 - 22 weeks) May - July (10 weeks)
CAO Work and Study China	China	A long running programme since 2005, students work as interns with companies in China and study about China by attending classes with top universities.	Feb - Jul & Jul - Dec (22 - 24 weeks)
CAO ASEAN INDIA Summer Internship	ASEAN countries, India	Aligned to national efforts to develop global ready talents exposed to these regions, these short term internship opportunities encourage more students to venture into these regional markets.	May - Jul (10 - 12 weeks)
CAO Research Internship	Worldwide	Partner Universities worldwide offer internship positions in their research labs to our engineering and science students.	Jan - Jun & Aug - Dec (20 - 22 weeks)
Renaissance Engineering Programme*	USA, Europe	Companies can hire top performing engineering interns that possesses aptitude in innovations and business acumen	May - Sep (10 - 12 weeks)
Overseas Entrepreneurship Programme*	Canada, China, USA, UK, Germany, Israel	For students who aspire to do an internship with start-ups overseas.	Jan - Jun & Aug - Dec (0.5 - 1 year)

* Programme managed by other offices, supported by CAO

➔ Contact Mr. Desmond Woo at desmondwoo@ntu.edu.sg /
+65 69082299 for enquiry on overseas internship

NTU EDGE

NTU EDGE - **E**quipping and **D**evelopment via **G**uided **E**xposures - is a work-integrated programme that allows students to develop practical skills and gain real-world project exposure through bite-size 'live' industry projects.

Through NTU EDGE, companies can gain access to talents across NTU's student population (freshmen to postgraduates) and at a flexible timeline, catering to their project and talent selection needs.

NTU students work on projects individually or in teams (can be cross-discipline) alongside their studies and are supervised by an industry project mentor. Projects run between 6 weeks and 12 weeks in duration.

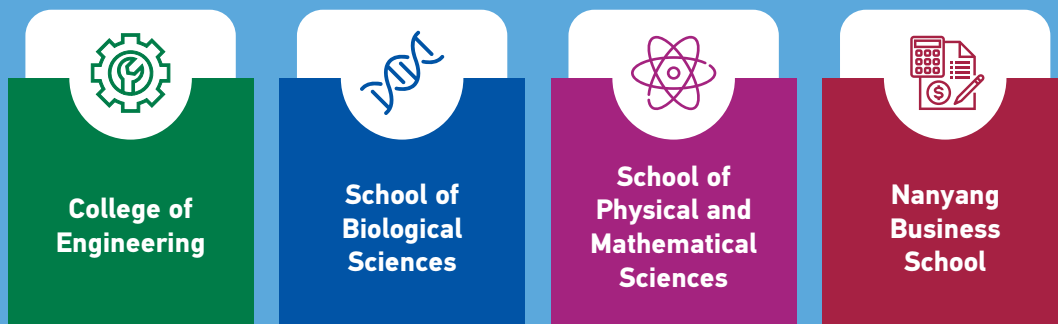

➔ For more information or to come on-board NTU EDGE, scan the QR code or email us at edge@ntu.edu.sg

WORK-STUDY DEGREE PROGRAMMES

NTU Work-Study Degree Programmes (NTU WSDP) are purposed to enhance student's readiness for the workplace by integrating institution-based learning with structured on-the-job training in partnership with companies.

Through NTU WSDP, companies can benefit from a steady supply of skills- and career-minded students through greater interaction with talents in the professional work environment. Early access to develop and nurture talents over multiple internships throughout the student's degree studies will enhance the company talent development pipeline.

NTU Work-Study Degree Programmes are offered in the faculties below:

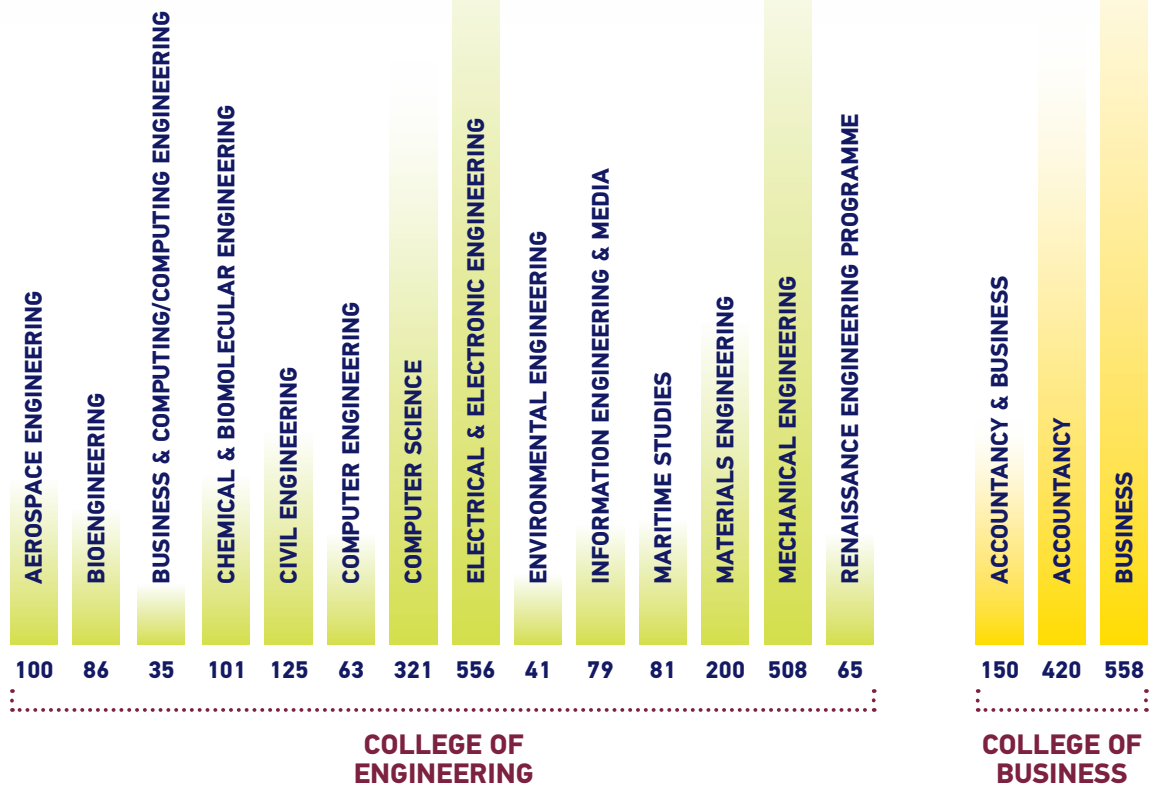

➔ For more information on NTU WSDP, scan the QR code or email us at wspd@ntu.edu.sg

STUDENT PROFILE

CLASS OF 2021

(UG)

Premier Scholars Programmes (PSP) are specially developed to provide exceptional students with a multidisciplinary and broad-based curriculum, under the close guidance of various academic and industry leaders. Students in one of these Scholars Programmes can also take up a scholarship with your organisation.

Graduating Class of 2021 Undergraduates:
5,486 estimated

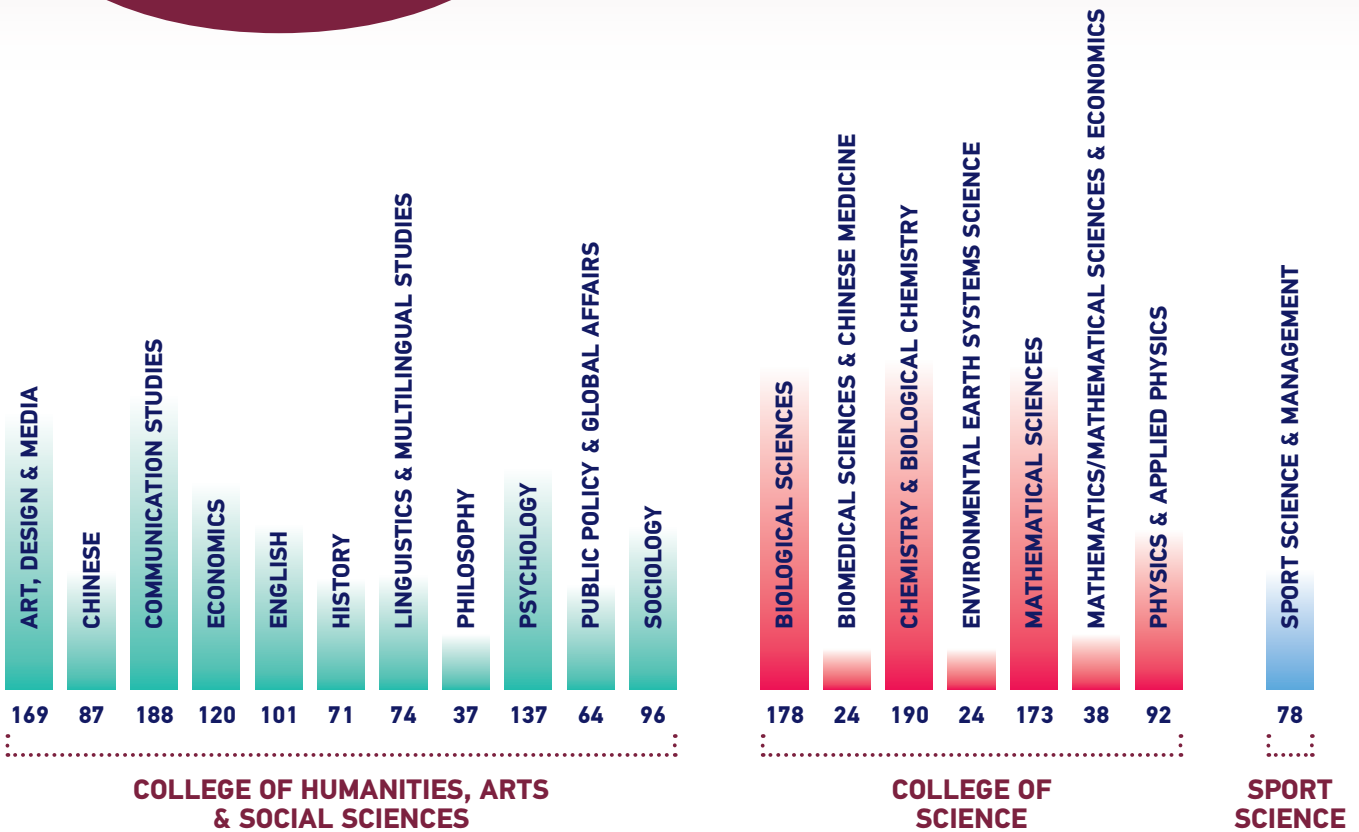

Total no. of undergraduates: **23,891**

Total no. of postgraduates: **8,100**

Additional Programmes / Majors*

- Art History
- Biomedical Structural Biology
- Food Science and Technology
- Media Analytics
- Medical Biology
- Medicinal Chemistry and Pharmacology
- Pharmaceutical Engineering
- Society & Urban Systems

**Availability is subject to students' selected Degree Programme*

CN YANG SCHOLARS PROGRAMME (CNYSP)

Nurtures future leaders at the interface of science and engineering, with a focus on technological innovation and scientific communication. The programme curates courses in science, mathematics, research, making-and-tinkering, as well as beyond-the-classroom learning such as internships and global learning, to prepare students to lead in the next phase of technological evolution.

RENAISSANCE ENGINEERING PROGRAMME (REP)

Aims to groom engineering leaders with entrepreneurial spirit into change makers, this four-and-a-half-year dual-degree programme bridges engineering, business and humanities. It awards a Bachelor of Engineering Science with a Master of Science in Technology Management. REP students also participate in an overseas exchange programme for one year, with professional attachment opportunities lasting 10 to 12 weeks in either the United States, Europe or Singapore.

UNIVERSITY SCHOLARS PROGRAMME (NTU-USP)

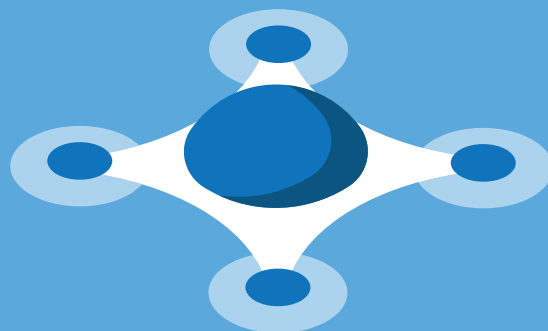

Committed to providing an intellectually stimulating environment for students to explore the realms which complements their major areas of study. The programme allows students to sharpen their critical thinking skills and leadership abilities through interdisciplinary academic and co-curricular programmes promoting independent learning and immersive cultural experiences.
