Customised Teambuilding Programme for NTU Mayors’ Class 2011

The Customised Teambuilding Programme designed for NTU Mayors’ Class will enable students on the Masters Programme to embark on their journey with an induction programme at OBS. The 2 day programme depicts the journey that the students will go through in the one year Masters Programme. The programme is designed to bring the 98 students through 5-stages of Team Development where students go through ‘Team Forming, Storming, Norming, Performing and Adjourning’.

Through the programme, they build trust and support with their peers, explore ways to communicate effectively in their teams, allocate their manpower and resources efficiently, stretch the team’s potential with the time constraints and experience the positive impacts of team synergy.

Outward Bound Professional (OBP) is a specialised team of training development consultants offering experiential learning programmes for our clients. OBP programmes seek to develop emotional intelligence in people as a key resource for optimal performance in organisations; and to positively impact a myriad of organisation objectives.

Working under the Outward Bound Singapore banner, OBP draws from over 40 years of experience and currently trains more than 20,000 participants and 80 corporate organisations yearly.

About Outward Bound Singapore

Outward Bound Singapore (OBS) is Singapore’s leading organisation providing outdoor education and adventure learning programmes to help people realise their full potential. Since 1967, more than a quarter million people have benefited from their journey of self-discovery at OBS and emerged stronger both mentally and physically. Through expeditions and outdoor activities, participants acquire new skills and a sense of adventure, develop the tenacity to overcome challenges as a team and broaden their perspectives. OBS aims to develop character, leadership skills, and team spirit through direct and purposeful experience in the outdoors. More information available at www.obs.pa.gov.sg
