[@RockinSourav](https://twitter.com/RockinSourav)

My core research expertise is in **data management and analytics**. I am more excited to solving problems not within the mainstream of these fields that require new perspectives instead of yet another solution to a traditional problem.

My research interests are **multi-area** (e.g., data management and HCI) and **multi-disciplinary** (e.g., system biology and data analytics, social psychology and data analytics, adult learning and data management) in flavor.

## RESEARCH

I have published 283 papers out of which more than **100** are in **top-tier** venues.

Pioneered bridging data management and HCI

Pioneered bridging social psychology and online social influence

Pioneered structural evolution mining of complex data

Real-world impact with data-driven conflicts of interest management

I am currently working on 6 research projects that are based in my lab.

## TEACHING

graduated

I have taught 11 different courses at the undergraduate and graduate level.

## SELECTED AWARDS AND HONORS

Research Service Teaching
