

## Graduate Student Positions Available

The Visual Cognitive Neuroscience (VCN) lab in Division of Psychology, Nanyang Technological University, Singapore is currently looking for graduate students (Ph.D program) who are interested in studying face perception, motion perception and auditory influence on visual perception through psychophysical experiments and/or computational modeling – collaborating with Communication Engineering, computer vision and machine learning. University research scholarship will be provided to qualified students.

The students admitted for doctoral study in the VCN lab will have financial support for four full years of study, as long as they remain in good academic standing and progress on schedule in their doctoral research. Benefits include S\$2,000/month (exchange rate 1 S\$ = 0.83 US\$ or 1 S\$ = 5.29 CN¥) stipend, a full tuition waiver and annual computer fee.

For students who are interested in this program, please send your latest CV (or personal statement), two letters of recommendation and up-to-date college transcript to Dr. Hong XU directly via email: [xuhong@ntu.edu.sg](mailto:xuhong@ntu.edu.sg)

More information, including faculty research interests, can be found at the faculty website: <http://www3.ntu.edu.sg/home/xuhong/>
