*Image/video transfer from WebCam to P800 via
Bluetooth*

Bluetooth will unlock the potential in thousands of devices people encounter daily, changing lives for the better!

- WebCam sends live video to a Bluetooth enabled PC
- Image captured is configured, compressed and then transmitted to the mobile phone over Bluetooth
- The images viewed on P800 can be further used with MMS & other applications

Imagine...

- Getting products previews, Walkaway alerts on your phone in Shopping Malls!
- Trailers of movies & dramas on your mobile phone!
