

**Professor Lee Jim Yang, National University of Singapore**

Prof Jim Yang LEE received his B.S from the University of Singapore and Ph. D from University of Michigan. He is currently Head and Professor of the Department of Chemical & Biomolecular Engineering at NUS. He is also a Senior Principal Fellow of the Energy Studies Institute (ESI). His main research interest is the synthesis of nanostructured materials for energy conversions and storage focusing on lithium-based battery chemistries and direct alcohol fuel cells. A list of his publications can be found on <http://www.researcherid.com/rid/E-5904-2010>.
